STRIKE LEADERS IN WINNIPEG ARRESTED

THE TREATY MUST BE SIGNED, ALLIES SAY IN REPLY TO GERMANY

Justice Demands Conditions Finally Stated in Communication From Victorious Powers; Allies Will Try Hohenzollern and Other Teutons

Paris, June 17.—The detailed reply of the Peace Conference to the counter-proposals of the Germans which was handed to the German delegation at Versailles yesterday takes up in its order each of the objections made by the enemy delegation to the provisions of the original peace treaty.

Among the modifications which are acceded to by the Conference are frontier rectifications for West Prussia; a plebiscite in upper Silesia, with a guarantee to Germany that she will receive fair treatment in securing mineral products from that region; modifications in the clause relating to finance, economic and waterways phases of the treaty; permission for Germany to retain 200,000 men in her army temporarily, and a promise to furnish Germany within a month with a full list of the persons who are to be tried for responsibility for the great conflict and violations of the laws of war.

Taking up the subject of penalties, the reply enters into a discussion of the immediate cause of the war and says that the conflict was brought about through the decision, deliberately taken, of the statesmen of Berlin, Vienna and Budapest."

Not to Be Trusted.

The reply asserts the Allied Powers cannot "entrust the trial of those responsible to those who have been their accomplices."

The tribunals established for the trial of those under charges will represent the deliberate judgment of the greater part of the civilized world, and there can be no question of admitting the right of jurisdiction of representatives of countries which took no part in the war. The accused will be insured full rights of defence. The Allied and Associated Powers are prepared to submit a final list of those who must be handed over to justice within one month of the signing of the treaty.

Reparation.

The Allied and Associated Powers refuse to enter into a discussion of the principles underlying the reparations clauses, but certain observations are made, especially as the German proposals are said to "present a view so distorted and inexact as to raise a doubt if the clauses were calmly and carefully examined." The problem of reparations is of such extraordinary magnitude and complexity, it is declared, that it can be solved only by a continuing body, limited in personnel and invested with broad powers.

It is pointed out that the Commission is not an "engine of oppression, nor a device for interfering with Germany's sovereignty." Its business is to fix what is to be paid, satisfy itself that Germany can pay and report in case Germany does not pay. The Commis-

LOCAL LABOR LEADER GOES TO WINNIPEG

To confer with leaders of the striking postal workers in Winnipeg, Christian Sivertz, President of the Postal Workers' Association of Canada, left for that city to-day. It is presumed that his visit is connected with the situation which developed when the Federal Government refused to reinstate the striking employees of the Post Office Department at Winnipeg. It is understood that Mr. Sivertz may meet Senator Gideon Robertson, Minister of Labor, to discuss the issue.

STRIKE DECISION PROMISED TO-NIGHT

Committee to Call Walk-Out or Dissolve; Electrical Workers' Attitude

Final action on the sympathetic walk out issue in all probability will be taken by the Strike Committee to-night. It is generally anticipated by labor leaders that the Committee will either call a general strike or disband. In the meantime it is impossible to make a forecast. It was generally thought yesterday that any move made would depend largely upon the attitude adopted by the electrical workers, who naturally control the activities of many commercial and industrial institutions in the city, as well as the street car and lighting services. At their meeting last night the electrical workers rejected the proposal that they "pull" the power, should the strike call for the walk out. While this statement was given out by an officer of the electrical workers union this morning, it was stated by one of the most prominent of local labor leaders to-day that the Strike Committee had received "satisfactory assurances" from the electrical workers. It is understood, however, that there is no possibility of the power being curtailed, unless very extraordinary developments arise.

"Looks Like Action."

Asked this morning what he thought of the prospects of a strike, James Dakers, Chairman of the Strike Committee, replied that everything depended upon the deliberations of the Committee. Mr. Dakers stated that he had not heard officially that the electrical workers were against a strike, nor would he agree that a refusal on their

(Concluded on page 15.)

BUENOS AYRES STRIKE HAS BEEN SETTLED

Buenos Ayres, June 17.—The transportation strike which began on June 12 and threatened complete paralysis of traffic in this city, was settled yesterday.

A COAST-TO-COAST AEROPLANE FLIGHT IN THE STATES SOON

Washington, June 17.—The army air service announced to-day that four planes of the Curtiss J.N.-4 type soon will start on a transcontinental flight from Hazelhurst Field, Mineola, N.Y., to Seattle, Wash. The flight will be for the purpose of mapping out an aerial route between the Atlantic and Pacific coasts.

DEPARTING DELEGATES OF GERMANY WERE STONED BY EXCITED VERSAILLES CROWD

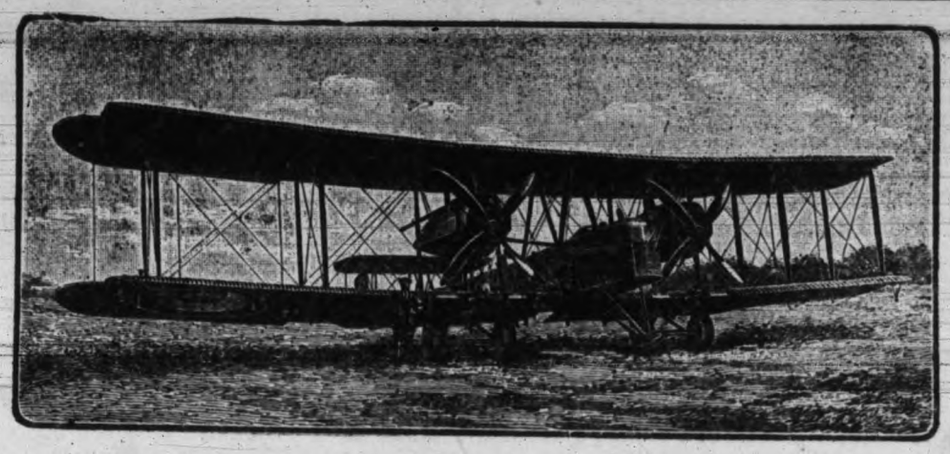
Paris, June 17.—Dr. Theodore Melchoir, one of the five principal delegates, and Frau Dorlblush, one of the secretaries to the German peace delegation, were struck on the heads by stones during a demonstration against the German delegates when they departed from Versailles last night.

The French Government to-day expressed regret over the demonstration against the Germans. Premier Clemenceau is writing a letter of apology to Count von Brockdorff-Rantzau.

It is reported that the perfect of police at Versailles may possibly be removed.

The demonstration had several phases but was confined mostly to jeering of the Germans.

MADE FIRST NON-STOP FLIGHT ACROSS ATLANTIC; VICKERS VIMY AEROPLANE



The Vickers Vimy biplane in which Capt. John Alcock and Lieut. Arthur Brown flew from Newfoundland to Ireland averaged 120 miles an hour. As the above picture shows, it is a twin-engined machine, the propellers being of the four-arm type.

C. P. R. GIVES EMPLOYEES IDLE AT VANCOUVER TILL NOON TO-MORROW TO RETURN

Vancouver, June 17.—A stand taken to-day by F. W. Peters, general superintendent of the C. P. R., with offices in Vancouver, in regard to striking workmen in the employ of the C. P. R., is expected either to result in the return to work of the railway clerks, freight handlers and station employees now on strike, or the filling of their places by others.

A statement issued by Superintendent Peters said:

"Notice is hereby given that if by noon, Wednesday, June 18, any of our former employees do not report for duty, we will consider that they have decided to leave the service of the C. P. R. permanently and their places will be filled by others, preference being given to returned soldiers."

The notice also was directed to the various internationals involved.

Vancouver again awoke this morning to the fact that for the fourth consecutive day it would be without its usual morning newspaper. Despite the instructions of the international officers of the Typographical Union, the printers of The Morning Sun did not show up for work last night. Early in the day two messages were received from international headquarters directing The Sun "chapel" to return to work. This order was countered with further telegraphic conversation between the local executive of the Typographical Union and the International, and while awaiting reply to counter-proposals The Sun printers remained away from work.

The night shift of The Province, afternoon paper, whose printers walked out yesterday at noon following a decision on the part of the printers not to set up an advertisement which had been tendered by the Citizens' League.

A Small Edition.

The Province issued a modified form of newspaper to-day, the issue having been printed at a local job plant and was circulated generously throughout the city.

The greatest improvement was noticeable in the telephone service. About a score of new operators were placed at work and schools are being conducted in the instruction of telephony. Officials of the telephone company declare that as long as the strike is on they will take back all operators presenting themselves. A limited number are said to have returned to work.

(Concluded on page 15.)

CAPT. JOHN ALCOCK TO COME TO STATES

London, June 16.—Captain John Alcock, who with Lieut. Arthur W. Brown completed on Sunday a trans-Atlantic flight from Newfoundland to Ireland, told the Associated Press today that he intends to make a trip to the United States soon.

Twenty-Eight Lost Lives in Alabama; Launch Capsized

Tuscaloosa, Ala., June 17.—Twenty-eight lives are now known to have been lost when the launch Mary Francis capsized in the river here to-day.

Ten Men Acting as Pickets Arrested in Winnipeg To-day

Winnipeg, June 17.—Ten men were arrested this morning near the Cresent Creamery Company's plant, where they were engaged in picketing. They were taken to the Central police station by the special constables who had made the arrests.

The men will be charged with being members of an unlawful assembly, Acting Chief of Police Newton announced.

ANOTHER TERM FOR THE GOUIN CABINET

Batch of Acclamations Means Quebec Continues to Have Liberal Government

Montreal, June 17. — Sir Lomer Gouin's Government was practically returned to power yesterday at the nominations for the provincial general elections. This is the first time in the history of Provincial or Federal elections in Canada that a Government has been able to secure a majority of the members by acclamation.

In some divisions where there are contests both candidates claim to be Liberals, either favoring the Government or running as Independent Liberals because of the fact that another Liberal has been officially endorsed as the candidate, but in these cases such so-called Independent Liberals probably will join the Government forces in the Assembly if elected.

Short Notice.

Lack of organization, due to the shortness of the notice given and the absence of means for a general contest, were responsible for the fact that there was no organized opposition to the Gouin forces on anything like a general scale.

With the exception of Hon. Napoleon Seguin, a member of the Government without portfolio, all the Ministers were returned by acclamation.

There were over forty acclamations out of a House of eighty-one members. Only one Conservative was elected by acclamation.

PLANE AVERAGED 120 MILES AN HOUR

Alcock Says He Nursed Motor of Vickers Vimy Machine

London, June 17.—Hall and snow were encountered at an altitude of 11,000 feet by the Vickers Vimy aeroplane piloted across the Atlantic Ocean from Newfoundland to Ireland by Capt. John Alcock and Lieut. Arthur Brown. The machine became covered with ice by six o'clock in the morning and remained so until an hour before it landed, according to Capt. Alcock. The radiator shutter and water temperature indicator were covered with ice four or five hours. Lieut. Brown continually had to climp up in the fuselage to chip off the ice with a knife.

The air speed indicator also gave trouble, being full of frozen particles, which came out when the plane descended to a lower altitude an hour before landing.

"For a time we spoke to each other

(Concluded on page 4.)

TURKS HEARD BY ALLIED LEADERS

Delegates Now at Versailles Are Not There as Plenipotentiaries

Paris, June 17.—The Council of Ten of the Peace Conference received the Turkish peace mission in the cloakroom of the Quai d'Orsay this morning. The Turkish delegation, headed by Damad Ferid Pasha, Grand Vizier, motored from Vaucresson accompanied by French officers.

The Ottoman representatives are here purely in the capacity of experts and to-day's meeting was for the purpose of setting forth the Turkish situation to the Conference.

Austrian Treaty

Paris, June 17.—The Council of Five met this afternoon and took up consideration of the remaining clauses in the peace terms with Austria. The Council likewise considered other matters requiring its attention before the departure of President Wilson tonight for his trip to Belgium.

KRONSTADT WAS REPORTED ON FIRE

Bolshevik Base City in Flames Sunday; Surrender of Warships

London, June 17.—The North Russian General Staff directing operations against Petrograd reported the fortress of Kronstadt on the Gulf of Kronstadt northwest of Petrograd, to be on fire, according to a Helsingfors dispatch to The Daily Mail which was filed on Sunday. Seven Bolshevik warships had hoisted the white flag, the dispatch states, and would surrender to the British squadron operating in the Gulf of Finland. Several forts near the fortress of Kronstadt also had raised the white flag.

The capture of the fort of Krasnayagorka, across the bay from Kronstadt, the occupation of which by White Guards was announced from Stockholm yesterday, will, it is stated, enable the North Russian force to strengthen its thrust against Peterhof and advance quickly on a wide front. Bolshevik garrisons near Krasnayagorka went over to the White Guard yesterday.

The North Russian force has taken during the present campaign 22,000 prisoners and eighty-seven cannon.

NINE MEN TAKEN INTO CUSTODY EARLY TO-DAY IN CITY OF WINNIPEG

Men Who Have Been Prominent in Strike Movement Seized by Police and Removed to Penitentiary; Charged With Seditious Conspiracy

Winnipeg, June 17.—Acting on authority from the Dominion Government, and armed with warrants issued by the Dominion Government officials, police here at an early hour this morning arrested nine men whom secret service authorities had marked down as leaders of Bolshevist propaganda, according to an official statement issued by Acting Chief of Police C. H. Newton at 10 o'clock this forenoon. It was declared that all of those taken into custody had played a prominent part in the sympathetic strike, now in its fifth week. They were taken to Stony Mountain Penitentiary.

The official list of those under detention follows:

R. B. Russell, secretary of the Winnipeg Metal Trades Council and one of the inner circle of the Strike Committee.

Rev. William Ivens, editor of the Western Labor News and pastor of the Labor Church.

R. E. Bray, leader of the pro-strikers parade which visited the Parliament Buildings on a number of occasions recently.

George W. Armstrong, an official of the Brotherhood of Carpenters.

Alderman John Queen, advertising manager of The Western Labor News and a member of the City Council for Ward Five.

Alderman A. A. Heaps, upholsterer and a member of the City Council for Ward Five.

Moses Charitonoff, arrested in 1918 on a charge of sedition, convicted and sentenced to pail and then released on a technicality. Of Russian birth.

Moses Alamazoff, an extreme Socialists, a Russian.

Mike Berenzuk, an admirer of Bolshevist theories, of Russian birth.

Beyond expressing indignation at the visit of representatives of the law to their homes, the men taken into custody submitted to arrest quietly, it is understood.

The blow of the Dominion Governmet against sedition in the West fell between three and four o'clock this morning.

Literature Seized.

While the arrests were being made, a cordon of special police was thrown around the Labor Hall, the central strike headquarters, and a squad of Royal Northwest Mounted Police officers searched the building. A truck load of literature was seized, including, it is stated, books and documents in connection with the Calgary convention at which the One Big Union movement was formally launched. Similar raids were made on the Ukrainian Temple and Liberty Hall, the Socialist headquarters.

Robertson There.

Following a conference with Commissioner A. B. Perry, of the Royal Northwest Mounted Police, and A. J. Andrews, K.C., at Mounted Police Headquarters this forenoon, Senator G. D. Robertson, Minister of Labor, said he had no information to give out. The arrests had taken place, he declared, as a result of a decision of the Department of Justice, and the Department of Labor was not concerned with them.

The Labor Minister remarked, however, that it had been "a very nice job." He said that there were no new developments in the strike, to which he referred to as a "tragedy."

Sedition Charge.

It was announced at police headquarters that the charge laid against the men is "seditious utterances." Reports that a number of additional arrests would be made within the next twenty-four hours could not be confirmed.

Secretary Ernest Robinson, of the Trades and Labor Council; J. L. McBride, business agent of the Electrical Workers' Union, and E. Woodworth, of Vancouver, were in the Labor Temple to-day but declined to make any statement other than to say that the arrests would have no effect on the strike and labor meetings would continue as scheduled.

Police Around Building.

The raid on the Labor Temple was conducted by Inspector Green, of the city police force, and Inspector Mead, of the R. N. W. M. P. For the purpose, a cordon of special police numbering several hundred was placed around the building, which was thoroughly searched. Doors of rooms that could not be opened were broken down. Books and papers of all sorts were taken and thrown into waiting automobiles.

A. J. Andrews Acting.

A. J. Andrews, K. C., has been retained by the Dominion authorities to take charge of the prosecutions. He announced that the charge against each of the accused was "seditious conspiracy."

While he could not give more definite information, it is believed that the charge is based on the recent amendment to the Immigration Act, which gives authority to the Dominion Government to seize and deport any persons, other than of Canadian birth, found guilty of agitation against constituted authority.

No Statement.

The news of the arrests brought out no statement from the remaining strike leaders, and The Labor News and The

BOLSHEVIK PLACARDS POSTED IN AUSTRIA, STATES DISPATCH

Geneva, June 16.—Via London, June 17.—Bolshevik placards have appeared throughout Austria, according to a telegram from Innsbruck. The dispatch declares the people are clamoring for annexation to Bolshevik Russia.

ANOTHER TELEGRAM SENT TO MR. HANNA

Premier Oliver Meets Delegation and Quotes Figures to C. N. R. Chairman

In an interview at Premier Oliver's office this morning, at which representatives of the Sidney Sawmill and Rubber Roofing Company were present, it was disclosed that the monthly expenditure paid out by the former concern in railway freights has for some time past averaged between $15,000 and $20,000, and in the case of the later, anywhere from $1,000 to $2,000 in a like period.

Armed with this knowledge the Premier has wired to the Chairman of the Canadian National Railways to inquire if he intends to allow an immediate expenditure of $500 on the tracks of the Victoria and Sidney Railway Company to prevent the people's system getting the benefit of this and other business that would accrue on the resumption, by the national road, of the regular service.

May Have to Close Down

This morning's delegation was headed by F. A. Pauline, M. P. P. for Saanich, while Messrs. Walton and Byers represented the Sawmill and Rubber Roofing concern respectively. The whole of the circumstances were discussed from every angle with a view to getting a satisfactory and early settlement of the present serious state of affairs. The members of both the industrial establishments made it clear to Premier Oliver that unless transportation facilities could be restored at once, ther would be no alternative but to cease operation.

Telegram to Hanna

The following telegram was sent to Mr. Hanna by Mr. Oliver and a reply asked for immediately:

"Manufacturing interests at Sidney are suffering greatly from want of transportation. Sawmill pays from $15,000 to $20,000 monthly, and the Rubber Roofing Company $1,000 to $2,000 in railway freights. Majority of this would accrue to your company if you furnish transportation. Rubber Company is at present transporting its output to Victoria by motor

STRIKE ORDER TO RAILWAY SHOPMEN IN CANADA FOR TO-MORROW MAY BE REVOKED

Montreal, June 17.—Recall of the strike order issued last night to the Canadian members of the Railway Shopmen of America was a possibility to-day, it was learned in labor circles.

Secretary Dickie, of the union, has left Montreal to confer with the executive officers of the United States division at Atlantic City and it is hinted here that he may be urged to call off the strike due to start to-morrow morning so that the question of wages and hours both for the United States and Canadian shopmen could be taken up at the same time at a later date.

GERMAN MAJORITY SOCIALISTS VOTE FOR A UNITED GERMANY

Berlin, June 16.—Via London, June 11.—The Majority Socialist Party conference to-day voted in favor of a united German republic. Other action taken by the conference was:

It voted down the Government project to create a fund of 1,000,000,000 marks, to be obtained by adding an extra hour to the working day, the pay for which would go to the Government.

It condemned the recent execution by the Bavarian Government of the Communist leaders Levine and Nissen.

It voted in favor of the withdrawal of the German troops from Esthonia and Lithuania.

It based a resolution demanding the abolition of the death penalty.

It rejected a proposal for a soviet constitution for Germany. The proposal received only one vote.

The congress adopted a resolution declining to give pensions to members of former royal families.

DIRECTOR OF C.P.R.

Montreal, June 17.—At a meeting of the Board of Directors of the Canadian Pacific Railway Company held here yesterday, Captain the Hon. William J. Shaughnessy was elected a director to fill the vacancy caused by the resignation of Hon. James Dunsmuir, of Victoria, B.C., who for some time had been desirous of relief from business cares and responsibilities.

It is understood that the place on the board made vacant by the death of the late Wilmont D. Matthews will be filled at a later date.

AUSTRIANS AT ST. GERMAIN.

St. Germain, June 16.—Via London, June 17.—A delegation of fourteen Austrians arrived here to-day from Vienna to join the Austrian peace mission. The arrivals included members of a financial commission and several ministerial counsellors and secretaries.

WINNIPEG WOMAN GAINED 24 POUNDS BY TAKING TANLAC

Mrs. Odger Suffered Seven Years Before Overcoming Trouble

"I have more confidence in Tanlac than any medicine I have ever seen, and I will tell you why I say this," said Mrs. A. W. Odger, who lives at 1845 Logan Street, Winnipeg, while talking to a Tanlac representative a few days ago.

"I had been trying for seven long years to find a medicine or treatment that would overcome my trouble," she continued, "but I never got any relief until I commenced taking Tanlac. I was in a very nervous, run-down condition, which was brought on by my stomach being out of order for such a long time. Everything I ate disagreed with me, and I would be in agony for hours at a time on account of my food souring and causing gas to form on my stomach. My kidneys must have been in bad condition also, for I would often have such terrible pains in the small of my back that I would actually sit down and cry. Why, I was so weak and run-down that I couldn't walk as much as one block without being completely exhausted, and I just kept on getting worse until I reached the point where I had to stay in bed for weeks at a time.

"Then I began to read in the papers about this new medicine, Tanlac—and I just somehow felt that it was just what I needed, so I got my son to bring me a bottle of it. Well, I was right in the way I felt about Tanlac, for I am not only well and strong again, but I have actually gained twenty-four pounds, and can do every bit of my housework without the least trouble. I believe my stomach is in as good condition as it ever was, for I have a fine appetite, and eat just anything I want, and I never suffer a particle afterwards. That pain has left my back, and my nerves have improved so much that I sleep like a child every night. I have regained all my strength, and can keep on the go all day now, and I hardly ever feel tired. Yes, Tanlac has done for me what all other medicine and treatments I had for seven years failed to do, and that is why I tell you that I have more confidence in this wonderful medicine than any other I have ever seen."

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas—Advt.

LORD FINLAY TO COME.

Winnipeg, June 17.—The Right Hon. Lord Finlay, ex-Lord Chancellor of England, one of the members of the Judicial Committee of the Privy Council, has accepted the invitation of Sir James Aikins, president of the Canadian Bar Association, to attend and address the annual meeting of the Association to be held at Winnipeg August 27 to 29.

JUSTICE FOR ALL IS ALLIES' COURSE

Germany Must Pay, They Say in Letter Accompanying Their Reply

PEACE TREATY DESIGNED TO GIVE FULL JUSTICE

Paris, June 17.—When the reply of the Allied and Associated Powers to the counter-proposals made by the Germans to the terms of peace laid down by the Allies was handed to the German delegation at Versailles yesterday it was accompanied by a covering letter, which was signed by M. Clemenceau and addressed to Count von Brockdorff-Rantzau, head of the German delegation. The letter says:

"The Allied and Associated Powers have given the most earnest consideration to the observations of the German delegation on the draft of the treaty of peace. The reply protests against the peace on the ground that it conflicts with terms upon which the armistice of November 11, 1918, was signed; that it is a peace of violence and not a peace of justice. The protest of the German delegates shows that they fail to understand the position in which Germany stands today. They seem to think that Germany has only to 'make sacrifices in order to attain peace,' as if this were but the end of some mere struggle for territory and power. The Allied and Associated Powers, therefore, feel it necessary to begin their reply by a clear statement of the judgment of the world, which has been forged piece by piece by the whole of civilized mankind.

Greatest Crime.

"In the view of the Allied and Associated Powers the war which began August 1, 1914, was the greatest crime against humanity and freedom of people that any nation calling itself civilized has ever consciously committed. For many years the rulers of Germany, true to the Prussian tradition, strove for a position of dominance in Europe. They were not satisfied with the growing prosperity and influence to which Germany was entitled and which all other nations were willing to accord her; they required that they should be able to dictate and tyrannize over a subservient Europe, as they dictated and tyrannized over a subservient Germany.

"In order to attain their ends they used every channel through which to educate their own subjects in the doctrine that might was right in international affairs. They never ceased to expand German armaments on land and sea, and to propagate the falsehood that it was necessary because Germany's neighbors were jealous of her prosperity and power.

Intrigue.

"She sought to sow hostility and suspicion, instead of friendship, between nations. The Germans developed a system of espionage and intrigue through which they were enabled to stir up international rebellion, and even to make secret offensive preparations within the territory of their neighbors whereby they might, when the moment came, strike them down with greater certainty and ease. They kept Europe in a ferment by threats of violence, and when they found that their neighbors were resolved to resist their arrogant will, they determined to assert their predominance in Europe by force.

"As soon as their preparations were complete they encouraged a subservient ally to declare war on Serbia on forty-eight hours' notice, a war involving the control of the Balkans, which they knew could not be localized, and which was found to unchain a general war.

"In order to make doubly sure, they refused any attempt at conciliation and conference until it was too late and the world war was inevitable, for which they had plotted, and for which, alone among the nations, they were adequately equipped and prepared.

Savage Methods.

"Germany's responsibility, however, is not confined to having planned and started the war. She is no less responsible for the savage and inhuman manner in which it was conducted. Though Germany was herself a guarantor of Belgium, Germany violated the rules after a solemn promise to respect the neutrality of this unoffending people.

"Not content with this, the Germans deliberately carried out a series of promiscuous shootings and burnings with the sole object of terrifying the inhabitants into submission by the very frightfulness of their actions. They were the first to use poisonous gas, notwithstanding the appalling suffering it entailed. They began the bombing and long-distance shelling of towns for no military object, but solely of the purpose of reducing the morale of their opponents by striking at their women and children.

U Boat Campaign.

They commenced the submarine campaign, with its piratical challenge to international law and its destruction of great numbers of innocent passengers and sailors in mid-ocean, far from succor, at the mercy of the winds and the waves and the yet more ruthless submarine crews. They drove thousands of women and children with brutal savagry into slavery in foreign lands. They allowed barbarities to be practiced against their prisoners of war, from which the most uncivilized people would have recoiled.

Unexampled.

"The conduct of Germany is almost unexampled in human history. The terrible responsibility which lies at her doors can be seen by the fact that no less than 7,000,000 dead lie in Europe, while more than 20,000,000 others carry upon them the evidence of wounds and suffering because Germany saw fit to gratify her lust for tyranny and war.

"The Allied and Associated Powers believe they would be false to those who have given their all to save the freedom of the world if they were to consent to treat the war on any other basis than as a crime against humanity and right.

"This attitude of the Allied and Associated Powers was made perfectly clear to Germany during the war by their principal statesmen. It was defined by President Wilson in his speech of April 6, 1918, and explicitly and categorically accepted by the German people as a principle covering the peace: 'Let everything that we say, my fellow countrymen, everything that we henceforth plan and accomplish, ring true to this response, till the majesty and might of our concerted power shall fill the thought and utterly defeat the force of those who flout and misprize what we honor and hold dear. Germany has once more said that force, and force alone, shall decide whether justice and peace shall reign in the affairs of men; whether right, as America conceives it, or dominion, as she conceives it, shall determine the destinies of mankind. There is, therefore, but one response possible from us—force, force to the utmost, force without stint or limit, the righteous and triumphant force which shall make right the law of the world and cast every selfish dominion down in the dust.'"

Justice.

M. Clemenceau in the letter also quoted from speeches delivered by Premier Lloyd George, himself as Premier of France, and Premier Orlando of Italy, in which it was specifically declared that when victory was won, compromise as to the peace terms would be impossible, and just punishment should be meted out and continued.

"Justice, therefore, is the only possible basis for the settlement of the accounts of this terrible war. Justice is what the German delegation asks for, and says that Germany has been promised that. But it must be justice for all. There must be justice for the dead and wounded, and for those who have been made orphans and bereaved that Europe might be free from Prussian despotism. There must be justice for the peoples who now stagger under war debts, which expended thirty billions that liberty might be saved. There must be justice for those millions whose homes and lands, ships and property German savagery has spoliated and destroyed.

"That is why the Allied and Associated Powers have insisted as a cardinal feature of the treaty that Germany must undertake to make reparation to the very uttermost of her power, for reparation for wrongs inflicted is of the essence of justice."

Final Reply.

London, June 17.—The peace terms presented to Germany yesterday are the final reply of the Allies, Rt. Hon. Andrew Bonar Law, Government spokesman in the House of Commons, declared in opening the Victory Loan campaign at the Guildhall yesterday. The speaker said he hoped earnestly the Germans would sign the terms.

"It is for them to choose within five days," Mr. Bonar Law added. "They must sign or their armistice will be at an end. There must be a just peace but a stern peace."

The speaker said that the Chief of the British Staff had declared that twenty-three different wars were now going on, and added:

"It is not all over. It would be quite possible by want of wisdom, by absence of restraint, by disunion among the Allies and by want of unity at home to lose, not the victory, but the full fierce of the victory which has been bought dearly."

The System is Poisoned

By Failure of the Liver and Kidneys to Purify the Blood

Relief Obtained by Use of Dr. Chase's Kidney-Liver Pills.

Too much eating of heavy, highly-seasoned foods and too little out-door exercise are the most frequent causes. The liver is upset, becomes torpid and inactive, the bowels are constipated, the kidneys are overworked in an effort to get rid of the accumulating poisons and break-down. Headache, backache, aching limbs sound a warning note, and when this is not heeded the natural development is rheumatism, lumbago, and painful and fatal forms of kidney disease.

To best overcome this condition Dr. Chase worked out in his private practice a prescription which has come to be known as Dr. Chase's Kidney-Liver Pills, because of their combined action on these filtering organs. No treatment has ever proven so successful in awakening the action of the kidneys, liver and bowels, and thereby cleansing the system of all impurities. For this reason Dr. Chase's Kidney-Liver Pills have a world-wide reputation as the most thorough cure for rheumatism, lumbago, chronic indigestion and constipation.

Mrs. Alex. Gordon, Walkerton, Ont., writes: "A few years ago I suffered from kidney and liver trouble, with pains in my back. I had heard of Dr. Chase's Kidney-Liver Pills being good for this, so I commenced taking them. I had only taken a couple of boxes when the trouble was all removed."

Mrs. M. Nickels, 192 Milton Street, Sarnia, writes: "I have found Dr. Chase's Kidney-Liver Pills an excellent remedy. I suffered considerably with kidney trouble and backache, but after I had taken five boxes of the Kidney-Liver Pills they gave me relief. Since then, which was about five years ago, I keep them on hand, and use them whenever I feel the need of them."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto. Substitutes will only disappoint. Insist on getting what you ask for.

146 FOR VICTORIA ON SS. AQUITANIA

Ottawa, June 17.—The Militia Department has been advised that the liner Aquitania, with 5,744 Canadian troops on board, will arrive at Halifax about June 19. She carries 255 officers, 24 cadets and 5,465 other ranks. The Department has not yet been advised as to the units on board.

The western classification by dispersal areas follows:

Victoria—Officers 7, cadets 2, other ranks 137.

Vancouver—Officers 21, cadets 1, other ranks 499.

Saskatoon—Officers 5; other ranks 300.

Medicine Hat—Officers 2, other ranks 100.

Calgary—Officers 10, cadets 1, other ranks 646.

Edmonton—Officers 9, other ranks 356.

Revelstoke—Officers 5, other ranks 106.

NOT HIS FAULT.

"A thoroughbred gentleman puts on his clothes and then forgets them."

"That's what I tried to do, but my tailor won't let me."

TORONTO TELEGRAM SAYS SIR T. WHITE TO JOIN CANADA LIFE

Toronto, June 17.—To sundry rumors concerning the future of Sir Thomas White, Minister of Finance, The Toronto Telegram on its financial page adds that it understands it is a virtual certainty that Sir Thomas will assume a high executive position with the Canadian Life Assurance Company after the flotation of the Victory Loan next autumn.

TEA DRINKING ETIQUETTE

The etiquette observed in tea drinking in China is very curious. If a lady asks you to drink tea with her—and especially if the tea be sweetened—you can count yourself as well received and much liked. If she does not like you, the tea is bitter, and report has it that in cases of this sort drainings are often used. After one sip of such tea the unliked visitor makes a prompt exit.

When paying a call, if the servant should bring in a cup of tea there is no need to take any particular notice of it. Allow the servant to place it where he likes near you, and continue your conversation as thought nothing had happened. If your business is pleasant and agreeable to the mistress or the master of the house, he or she will pass the beverage to you; if not, you are expected to leave it untouched, otherwise you are likely to have a quarrel on hand, and a Chinese quarrel—either with a man or a woman—is unpleasant.—Tit-Bits.

PILES Do not suffer another day with Itching, Bleeding, or Protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as certainly cure you. 60c. a box; all dealers, or Edmanson, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c. stamp to pay postage.

U. S. TROOPS CROSSED LINE INTO MEXICO

Villa Troops Fled and American Detachment Returned to States

Mexico City, June 17.—The Mexican Government has nothing to give out for publication regarding the crossing of American troops from El Paso into Juarez, according to a statement made last night by General Jaun Barragan, President Carranza's Chief of Staff.

General Barragan, who was in conference with the President and Cabinet Ministers virtually all day yesterday, gave out a copy of official dispatches giving details of the fighting which were almost identical with those of the Associated Press.

One official dispatch from General Cando Aguila, confidential Ambassador of President Carranza in the United States, stated that he had made representations to the State Department in Washington regarding the incident.

The tone of official dispatches seemed to indicate that Mexican officials on the border accepted the American claim that attack on the Villa forces by American troops was for the purpose of protecting American lives across the frontier.

The statement made by General Gonzales that his forces could have defeated the Villistas without American help is concurred in here.

Villistas Fled.

Juarez, June 17.—The detachment of United States infantry sent across the border into this city withdrew from Juarez to El Paso at 10.30 a. m. yesterday.

Villa troops, driven from Juarez early yesterday by the United States infantrymen, who had been sent across the border to stop the firing into Juarez by Mexican rebels, fled to the southeast of Juarez, headed toward Guadalupe, opposite Fabens, Texas, thirty-two miles from here.

The entire United States command returned to American soil after having spent exactly eleven hours in Mexico.

CANADIAN TROOPS DID NOT SET FIRE TO TOWN OF WITLEY

London, June 17. — A strenuous denial is given to the statement that rioters at the Canadian military camp at Witley deliberately set the town in a blaze. It is certainly true that when the seriousness of the fire was appreciated, practically the whole camp turned out in an attempt to extinguish the flames. The long drought and the inflammables made their efforts futile.

The long lines of huts to-day present the spectacle of a mere heap of blackened rubbish.

PERMANENT ARMY OF 10,000 IN CANADA

Mewburn Introduces Bill at Ottawa to Amend Militia Act

Ottawa, June 17.—Major-General Mewburn introduced in the House of Commons yesterday afternoon a bill to amend the Militia Act so as to provide for a permanent force in Canada not to exceed 10,000 instead of 5,000 as at present. The bill was given first reading.

Sir Robert Borden moved a resolution providing for a free conference between the Senate and the House of Commons on the bill to consolidate and amend the Railway Act. The Senate had amended an amendment of the Commons to the bill, and had refused to accept other amendments. The amendment relates to the control of streets by municipalities.

Budget Debate.

Continuing the debate on the budget, D. D. McKenzie, the Liberal Leader, said he was in favor of the tariff policy advocated by the late Sir Wilfred Laurier. He further put himself on record as being entirely in accord with the principles of the Liberal Party on the tariff question, and explained that in a recent speech, in which he had made a reference to the tariff, which has been the subject of much comment, he had used the word "protection" when he should have said bounty.

He was in favor, he said, of encouraging industries which develop the natural resources of the country by bounties or otherwise. He stood by the McMaster amendment, both in its present form and in the more specific form in which it was moved earlier in the session. The amendment expressed in a compact way, he said, the attitude of the Liberal Party at present.

Mr. McKenzie criticized the Government in connection with expenditures, the cost of living and labor troubles. He once more expressed the opinion that a court should be established to deal with labor troubles.

Mr. McKenzie remarked that the Government on November 29, 1911, had promised a Tariff Commission, but the Commission had not yet been appointed.

It was not fair to say that the Liberal Party was opposed to the building of railways in the West. If there was anything grand in Western development it was traceable to the former Liberal administration. The Liberal Party was in favor of building railways in the West, but wanted no foolery about it. So far as iron and steel were concerned, in Mr. McKenzie's view, a nation must develop its natural resources.

When the Liberal Party was called upon to help farmers, lumbermen or fishermen, it felt that by helping these producers, it was helping the people of the country as a whole.

Government Control.

The Leader of the Opposition advocated Government control of transportation, grain elevators and cold storage plants, as steps toward decreasing the high cost of living. He was not, he said, wedded to the idea of Government ownership, but under the present serious conditions he thought the Government should exercise jurisdiction over these branches of industry.

Making passing reference to the Winnipeg strike, Mr. McKenzie remarked that in his opinion the Ministers sent to Winnipeg had not exercised the judgment which should have been exercised. He rather feared that the laboring people there "regarded the Ministers as taking sides."

Dr. W. D. Cowan, Regina, said he would oppose the McMaster amendment because the Government, in response to the demands of Western members, had made tariff changes that would save the people $17,000,000 a year.

Dr. Cowan said that if a revision of the tariff were made at present, when the country was in a restless and unsettled condition, it might be unsatisfactory. Once made, there probably would bet be another revision for seven or eight years. He was, he said, strongly in favor of Sir Thomas White's view for a revision later on.

Dr. Cowan concluded that he was going to support the Government because the Government had given what he considered a very satisfactory reduction.

Peace Treaty

Sir Robert Borden asserted, when questioned by Mr. Lemieux, that it certainly was his intention to speak at the appropriate time with regard to the terms of the peace treaty and the part the representatives of Canada had taken.

D. D. McKenzie wanted to know if the statement would be made this session.

Sir Robert said that all depended on when the peace treaty was signed. If this session, the statement would be made provided there was time to debate the question. However, if it should be found impossible they would have to consider a date for calling Parliament conveniently early to discuss it.

Hon. Charles Murphy was informed by the Prime Minister that he had asked Sir James Lougheed, Minister of Soldiers' Civil Re-establishment, for a statement as to the resignation of Lieut.-Colonel McKelvie Bell and Captain J. Grant Cunningham. The statement would be laid on the table of the House.

Canal Employees

Mr. Burnham asked if it was a fact that returned soldiers who had been given their old positions on the Trent Canal at Peterboro were being paid less than those in similar positions alongside them.

The answer of the Government was in the negative.

Demobilization

Hon. J. D. Reid stated in reply to Mr. Lemieux that the demobilization of the troops was going on rapidly. They still expected to have all the men home early in August, unless more strikes should occur in the United Kingdom.

J. H. Sinclair, of Guysboro, said he had been informed that the freight rate on raw sugar from Cuba to Montreal was 38½ cents a hundred pounds, while to Halifax and St. John the charge was 58½ cents. He said this was a discrimination against the sugar refiners of the maritime Provinces.

Napoleon called the drum the King of instruments. The secret of the drum's effectiveness is reiterated rhythm. Almost the sole musical mission of the military drum is to accentuate marching steps.

NO MORE NERVOUS HEADACHES

Since She Tried "FRUIT-A-TIVES," The Famous Fruit Medicine.

MISS ANNIE WARD.

112 Hazen St., St. John, N. B.

"It is with pleasure that I write to tell you of the great benefit I received from the use of your medicine, 'Fruit-a-tives.' I was a great sufferer for many years from Nervous Headaches and Constipation. I tried everything, consulted doctors; but nothing seemed to help me until I tried 'Fruit-a-tives.'

After I had taken several boxes, I was completely relieved of these troubles and have been unusually well ever since."

Miss ANNIE WARD.

'Fruit-a-tives' is fresh fruit juices, concentrated and increased in strength, combined with finest tonics, and a positive remedy for Headaches and Constipation.

50c. a box, 6 for $2.50, trial size 25c. At all dealers or Fruit-a-tives Limited, Ottawa.

CONSULAR REPORT ON AUSTRALIAN WOOL

Decreases in Number Head Sheep to Increase Costs of Wool and Mutton

Washington, June 17.—The following excerpts relating to the wool, wheat and live stock situation in Australia are taken from the report of the American Consul at Sydney to the Department of State.

"The Commonwealth wool purchase will remain in force until June, 1920, at least, which assures 55 per cent advance over pre-war prices. On June 30, 1918, the estimated number of sheep in the Commonwealth of Australia was 82,533,010, and the total value of wool produced for the season 1917-1918 was $271,534,755, which comprises 2,488,862 bales. It is very difficult to obtain the estimate of the wool on hand at the present time, but from a comparatively reliable unoffical source I learned that there were about 2,000,000 bales in Australia up to March, 1919.

Price of Wheat.

"The price of wheat is not likely to decline at present as there is now a better prospect for reaching the world's markets with Australian wheat through the liberation of tonnage. Already the sale of 50,000 tons of wheat has been made to Norway, and the 1919 crop will be far below the 1918 crop, the failure being due to the severe drought in many of the wheat-growing districts. On account of the low price of wheat, $1.04 per bushel, less carriage to the embarking port, and owing to the fact that a considerable area of wheat land will be converted into grazing pastures, the wheat yeild is not likely to increase soon. The crop in 1918-1919 was estimated at 76,000,000 bushels, as compared with 114,865,514 bushels in 1917-1918, and 152,420,189 in 1916-1917, and 179,065,703 in 1915-1916. The recent drought in the wheat-growing area is said to be the most severe for the past thirty years. So long as the army remains abroad there will be a good demand for clothing, boots, shoes and various foodstuffs.

"The total number of horses in New South Wales in 1917 was 619,085, cattle 2,785,557, sheep 37,455,380; in 1918, horses 608,564, cattle 2,852,836, sheep 37,377,923. The figure indicate a decrease of 10,521 horses, an increase of 66,779 cattle and a decrease of 77,457 sheep. The decrease in sheep is attributed almost entirely to the severe drought."

GEORGE ELIOT'S EARNINGS.

In view of the centenary of George Eliot this year, it is interesting to learn that for a single work she received as much as £7,000.

But she did not always command such large sums. For instance, when she translated Dr. Strauss's "Leben Jesu" she was paid £20 only, and the translation of "Essence of Christianity" brought her the modest sum of £50.

Directly she turned her attention to fiction she scored forthwith. She sold the rights of "Adam Bede" to Blackwoods for £300, but so remarkably remunerative did its publication turn out that the publishers subsequently sent her £1,500 as a present.—Tit-Bits.

Lots of bright hopes are exchanged for gloomy experiences.

Announcement

CHANGE OF NAME

The British American Trust Company

with offices in Vancouver and Victoria, by resolutions of the shareholders and confirmation by the Court, have changed the name of the company to that of

The British American Bond Corporation

(Limited)

and have received from the Registrar of Joint Stock Companies a new certificate of incorporation. The company has for the past year conducted a department dealing in Government, Municipal and Corporation Bonds, and, with the rapid growth of this business, the directors decided some time ago to delete their trust powers, making the dealings in securities the principal business of the company.

Under the new name the company will continue its insurance business, representing the following companies: Phoenix, of Hartford; Alliance Insurance Company, of Philadelphia; Imperial Underwriters, of Toronto; Insurance Company of North America, Equitable Fire and Marine, and the Railway Passengers.

The British American Bond Corporation, Limited

THEIR LAST WORD.

The terrific indictment with which the Allied and Associated Powers accompanied their last word on the peace terms is a brand which will mark the face of Germany for many generations and which only long years of decent behavior springing from a chastened and penitent spirit will obscure, if not finally erase.

Germany is reminded that she is receiving justice as a criminal at the bar, not as the negotiator of a compromise or the participant in a council of equals. The arch-conspirator of the awful tragedy of the last five years, the author of the most hideous infamies that ever marked the record of any nation or people, she is told in terms which no glib casuist in Berlin can becloud and which would overcome with sense of shame any country in which the vestige of a soul or conscience survived, just what her status is in this trial.

Her Government has been trying desperately to establish a position as an equal negotiator, as one who shares only part responsibility for a war which should be borne by all. Not once has it admitted Germany's guilt as the author of the conflict or expressed regret for the numerous specific instances in which during the war she violated every canon of honor and decency and outraged every law of humanity. It had the impudence to imply that the Allies were as inhumane as Germany and to make counter demands for damages. It even proposed that Germany should act as a mandatory for the former German colonies in the League of Nations.

The indictment of the Allied and Associated Powers given out for publication yesterday puts Germany unmistakably where she belongs—in the prisoner's dock—and the terms she must sign must be signed by her there. More imperative than indemnities or territorial readjustments is the necessity of demonstrating that the days when nations can provoke wars for imperialistic purposes and escape just consequences have gone forever; that when nations become criminal and commit crimes against mankind they must be judged and punished as criminals.

The Allied and Associated Powers have made certain modifications in the terms, but not in any vital particulars. There are to be a plebiscite in Upper Silesia, instead of an immediate cession of this district to Poland, readjustments in the frontier of West Prussia, and the omission of certain sections in the Schleswig plebiscite. Permission is given Germany to have a volunteer army of 200,000, for a time, instead of 100,000 as originally determined. The Reparation Commission to be appointed by the Allies will co-operate with a German commission from whom it will receive suggestions. Germany is promised membership in the League of Nations in the early future, if she fulfills her treaty obligations.

Just what these modifications involve it is impossible to say until a detailed account of them has been studied, but it may be taken for granted that they represent no vital concession from the principles originally set forth in their relation to the future peace of the world and the full measure of justice that Germany must satisfy.

EAST COMING WEST.

While it is no doubt customary for the Premier of the Province to address conventions of national importance where annual gatherings are held within its territory, it is especially gratifying to note that the Great War Veterans' Association of Canada has invited Mr. Oliver to be present at the Dominion Convention to be held in Vancouver on June 30.

Veterans in British Columbia for the most part are appreciative of the difficulties under which this Province is compelled to carry out its share of rehabilitation programmes; but the delegates from Eastern branch associations may have wondered why British Columbia has had to train its attentions on the Dominion Government so often in an endeavor to convince the Ottawa authorities that this Province is just as much a part of the Dominion of Canada as is the Province of Ontario.

Great War Veteran representatives from east of the Rockies will have an opportunity now of hearing at first hand from the Premier of the Province what British Columbia has done for her returned men. It may be that the easterners will be convinced that this Province has natural disabilities—financial and physical—which deserve special consideration when any national blanket policy of rehabilitation is suggested.

In view of all the circumstances it is fortunate that the Premier is to have an opportunity of meeting a Dominion Convention of Great War Veterans, and if this Province is successful in enlisting the sympathetic support of the eastern Veterans in meeting its peculiarly difficult problems the result will be specially gratifying on every side.

HOW THEY KEEP FAITH.

Scarcely more than a week ago representatives from practically every organization in the city of Victoria waited upon the Streets Committee—which, by the way, is the whole City Council—for the purpose of urging a programme of playground supervision. The delegation had reason to feel satisfied with its mission, particularly when the committee's report reached the Council with the signatures of seven aldermen favorably disposed to the proposal. His Worship commended the delegation's enterprise and promised his support when the matter came to be dealt with officially.

We are now at a loss to understand, therefore, why a sufficient change of mind in the aldermanic circle should have set in to cause a rejection of the scheme at last night's sitting of the Council. This is regrettable from more than one standpoint. Everybody, of course, will commend the Council for desiring to husband the finances of the city; but four dollars a day spent in training the younger generations how to play is as much like an extravagance as protecting the average aldermanic anatomy from a heavy rainstorm by purchasing a dollar umbrella.

Furthermore the decision disregards the wishes of one of the most representative delegations that could be called together, while it demonstrates an extraordinary lack of interest in a plan designed to teach young Canadians how to "play the game." The Council would do well to reconsider its decision.

HELP THE ORPHANAGE.

The B. C. Protestant Orphanage always has had the generous support of the Victoria public, and we feel we can safely predict that the annual Pound Party of the institution which is to be held on the Orphanage grounds on Thursday afternoon from 2.30 o'clock to 6 o'clock will be no exception from that rule. Patrons of the party are not only guaranteed an enjoyable time, but they will derive a deeper satisfaction from the knowledge that they will have assisted a most deserving institution and contributed to the welfare and happiness of its little inmates. Contributions of money and provisions will be gratefully accepted by those in charge of the event whose appeal, we are sure, will meet with a response that will fully equal their expectations.

"NO-MAN'S LAND."

There is a "No-Man's Land" in the House of Commons at Ottawa, the company in which is noticeably growing. This is the section of the House to which members who cannot support the Government and will not make common cause with the Opposition on account of its reactionary leadership have betaken themselves. The most distinguished member of the group is Hon. W. S. Fielding, in many respects the ablest and most experienced statesman in the House, and his colleagues include Dr. Michael Clark, F. F. Pardee and, during the last few days, Hon. T. A. Crerar.

Claims for damages, caused by inadvertent slippings into oil used on city street work, and the request for about $1,500 for playground supervision apparently caught the City Council in a ragged frame of mind last night. The playground scheme got little mercy; but it was responsible for bringing out a few novel arguments. Oil damage to clothes, however, prompted a really original remark from Alderman Fullerton. "They do it intentionally; they spoil their clothes and send the bill to the City," quoth he. A by-law might be speedily passed imposing a penalty upon all persons found wallowing in oil on the public highway without first having advertised notice of their intention of doing so in the daily press.

Harry Hawker failed to tell the world what he ate and drank during the hours in which he piloted his little craft more than half way across the Atlantic. Captain Alcock confessed soon after landing that he and his companion ate sandwiches and chocolate and drank coffee and ale. We expected to hear about the three first sustainers; but we are at a loss to know what to say about the fourth. Ale in mid-Atlantic at midnight! If it had been a particular kind of ale it would have been easy to understand. But just ale is a puzzler. Query, if Harry Hawker had had ale with him would he have been successful? Moderation League please note.

MUCH YET FOR AVIATORS TO LEARN.

(Springfield Republican.)

How far aerial navigation still is from being an exact science is shown by the fact that NC-4 was forty-five miles off her calculated position when Flores Island was sighted. At 9.5 in the morning fog obscured the sun, and at 11.27, less than two hours later, it sighted land. Nearly the whole way the airmen had been in touch with the patrolling destroyers, and when the fog settled they must have known their position closely, yet in two hours they had got out of their way forty-five miles. To what extent this was due to variation of speed, to compass error and to drift, may be difficult to determine, but it is likely that in aerial navigation all these factors are large. The great speed of the craft makes it easy enough to find a point of destination in clear weather if there is fuel to spare, for land can be seen one hundred miles or more away, and a circuit of a few hours would cover an area which a ship in the days of Columbus could hardly have explored in weeks. But this very mobility obviously introduces the possibility of enormous error if the airman once goes astray. If in two hours a craft can get forty-five miles out of its way, what might not be the deviation in a flight of nearly 2,000 miles such as Hawker undertook?

COSTLY "SAVINGS."

(New York World.)

Influential interests at Versailles are attempting to "save Constantinople" for the comfort of the Moslem populations of the empires engaged in the treaty-making, forgetting evidently, that the saving of Constantinople in times past perpetuated conditions in the Near East that had much to do with the recent world war. More than forty years ago Great Britain kept the Turk in Europe for imperial reasons, and it has paid for it dearly since then.

THE TREATY MUST BE SIGNED, ALLIES SAYS IN REPLY TO GERMANY

(Continued from page 1.)

sion can not prescribe nor enforce taxes nor dictate the character of the German budget, but may examine the latter to see if any modification is desirable, probably in Germany's interests and to be assured that German taxation is at least as heavy as the heaviest Allied taxation.

Industry.

Declaring that the resumption of German industry is of interest to the Allies as well as to Germany, the reply declares that commercial facilities will not be withheld from Germany, but they will afford to Germany facilities for food supplies, raw materials and overseas transport under conditions "which can not be laid down in advance."

Must Be Signed.

"Meanwhile the treaty must be signed," the reply declares. "The burdens of Germany undoubtedly are heavy, but they are imposed under conditions of justice by peoples whose social well-being and economic prosperity have been gravely impaired by wrongs which it is beyond the utmost power of Germany to repair."

In the financial section of the reply it is stipulated that reparation must be made prior to the settlement of all other German public debts with such exception as the Commission may approve.

ANOTHER TELEGRAM SENT TO MR. HANNA

(Continued from page 1.)

truck and it is likely that both concerns will close down unless you afford relief at once. I feel sure that $500 would make the road safe to operate until a more permanent arrangement could be made. Surely you are not going to let this small sum prevent your obtaining such a good feeder for your road."

Copy to Federal Member.

Backing up this telegram to President Hanna, the Premier also wired a copy of it to J. C. McIntosh, Federal member for Nanaimo, who is in Ottawa in connection with his parliamentary duties, asking him to see the Hon. J. D. Read, Minister of Railways and Canals, and Sir Henry Drayton, Chairman of the Board of Railway Commissioners, in an endeavor to get action at once.

It will be recalled that the Provincial Government's railway engineer made a complete examination into the state of the road recently and came to the conclusion that for an expenditure of about $500 it could be placed in a sufficiently satisfactory state to carry with safety any C. N. R. rolling stock at present on Vancouver Island.

On the other hand, the engineer of the national road declared that in order to operate about one mile and a half of the road—from the intersection to Sidney—an expenditure on repair and replacement work of $5,200 would be necessary. In addition to that Mr. Hanna was advised that a further $6,000 would be involved in the immediate future for shore protection work.

While these two opinions are being reconciled the people of Sidney and contiguous localities are suffering inconvenience, hardship and financial loss.

PLANE AVERAGED 120 MILES AN HOUR

(Continued from page 1.)

through the communication telephones, said Capt. Alcock, "but these broke down after four hours and we had to discard them. Then I had to shout to Lieut. Brown. Most of our 'conversation' consisted of tapping each other on the shoulder."

No Loneliness.

To a correspondent Capt. Alcock said:

"It is difficult to sum up the impressions I had during the flight. It is curious to be able to say that I had no sense of remoteness. I had done considerable night flying and any sense of loneliness had worn off long ago.

"I do not think that either Lieut. Brown or I had any thought of what we were flying over. We were merely intent on getting across. We wanted to get the job done and I can tell you that we were jolly pleased when we saw the Irish coast.

Nursed Motor.

"I believe the great secret of long-distance flying under such conditions as we experienced is to nurse the engine. I never opened the throttle once. The machine itself has a speed of ninety miles an hour, but without opening the throttle and with a wind, we averaged 120."

Emphasizing the bodily comfort of the passage, Capt. Alcock said:

Comfortable.

"I wore electrically heated clothes as an experiment, but the machine itself was so snug that it was unnecessary to switch on the current."

Capt. Alcock was asked whether he regarded the flight as having beaten that of the American seaplane N. C.-4. To this Capt. Alcock replied:

"I could not say anything but what is good of the Americans. I have been treated very kindly by the Americans since I have been over there (meaning Newfoundland)."

Congratulated by Fiance.

London, June 17.—"Magnificent, but I never doubted your success." This was the congratulatory message sent Lieut. Arthur Brown by his fiancee, Miss Kennedy.

The marriage of Lieut. Brown and Miss Kennedy originally was fixed for April, but when Lieut. Brown understood that he was to navigate Capt. Alcock's aeroplane across the Atlantic, the wedding was postponed until after the attempt had been made. The wedding now will not be delayed.

Praised by Read.

Brest, June 17.—"One great stunt," was the comment of Lieut.-Commander Albert C. Read, of the American seaplane N. C.-4, the first heavier-than-air machine to cross the Atlantic, yesterday on the successful flight of Capt. Alcock and Lieut. Brown.

"While there is nothing which will add much information to the art of aviation as a result of the flight," he continued, "it was a wonderful, nervy attempt and a magnificent achievement."

Medal of Honor.

Washington, June 17.—A resolution authorizing the President to confer the Congressional Medal of Honor upon Captain Alcock and Lieut. Brown and expressing the admiration of Congress at their feat in making the non-stop flight across the Atlantic, was introduced yesterday by Representative Laguardia, of New York, a Republican.

DRIVE PROGRESSES FOR RED SHIELD FUND

Street Meeting Will Be Held Outside Headquarters To-night

Vigorous efforts will be necessary to land the objective of the Salvation Army in the drive which is now in progress, but the atmosphere of Headquarters in the old Northern Crown Bank Block augurs for a successful issue.

This evening at eight o'clock a great meeting will be held at the corner of Yates and Government streets, when the Victoria Silver Band will play several selections, and speakers will give addresses on the Army and its work.

On Thursday night a big gathering of cars and canvassers from the G.W.V.A., Army and Navy Veterans, Comrades of the Great War, Next-of-Kin, Knights of Columbus, Salvation Army and others will gather to cover the whole of the residential districts with envelopes and pamphlets. Two hundred canvassers and fifty cars are expected. The Army invites all who would like to help to bring their cars, and also any helpers they can secure.

"The organization of the campaign is perfect, affecting every class and section of the community. The workers in the industrial plants are addressed during the noon hour by speakers and splendid results are anticipated. The men are very good to the Army, recognizing that of all societies in the world working for the amelioration of the conditions of the poor and needy the Salvation Army is one of the most sincere and self-sacrificing. The plants will be responsible for a splendid proportion of the eventual total. It is anticipated the men will average fifty cents per head in all the shipbuilding plants," says Adjutant Tutte, in charge of the drive.

"The envelopes which are to be distributed in every house in the city are for the wives, guests, visitors, lodgers and the boys and girls. All have a place to record their gifts. Father is desired to help in his office or business if approached, as it is intended to show what each plant and business classification in the city has given. This will show what the jewellers, dry goods merchants or grocers stand for in the total when the subscription is taken," Adjutant Tutte suggests.

Subscription lists have been left with every bank in the city, as well as all the ticket offices, and the City Treasurer's and Waterworks. At any of these places subscriptions may be left for the Red Shield Campaign, or at the headquarters at the corner of Yates Street and Government Street.

RAIN DOES GOOD IN MOOSE JAW REGION

Moose Jaw, June 17.—After a sultry day, during which the temperature was 95 n the shade, a severe electrical, wind and rain storm passed over this city at midnight last night. Hail also fell for a few minutes, but reports so far received from the surrounding country show that the hail did very little damage.

No damage resulted from the storm. On the contrary the rain was very welcome to the farmers, as the moisture was badly needed in many spots.

WEILER BROS LIMITED
Government Street Opposite Post Office

NEGROES OF LABOR BATTALIONS IN BRITAIN INVITED TO DEPART

London, June 17.—In consequence of riots at Liverpool, Cardiff and elsewhere in which colored men have participated, the Government has decided to repatriate at the earliest possible moment all aliens who came to the United Kingdom during the war, according to The Daily Mail. The bulk of these are Chinese, the others including Swedes, Danes and Norwegians.

The negroes who are in the United Kingdom are British subjects and can not be deported against their will, but to go by offering free passage and an attempt will be made to induce them money.

VOTES FOR WOMEN.

Albany, N. Y., June 17.—The New York Legislature, without a dissenting vote, last night ratified the Federal woman suffrage amendment. New York is the sixth state to ratify it.

A BEDTIME STORY

Uncle Wiggily and Billie's Knife

Copyright, 1918, by McClure Newspaper Syndicate. (By Howard R. Garis.)

Once upon a time, when Uncle Wiggily Longears, the bunny rabbit gentleman, was riding through the woods in his automobile, he passed the lady mouse teacher from the hollow stump school. Miss Mouse was walking along on her cute, tiny little paws.

"Good afternoon, Miss Mouse," spoke Uncle Wiggily, with a low and polite bow of his tall silk hat. "May I not have the pleasure of giving you a ride in my automobile to wherever you wish to go?"

"That is very kind of you, I'm sure," said the lady mouse teacher. "I am a bit tired from having taught school all day, and a ride through the woods will refresh me."

"Then get in, if you please," said Mr. Longears, and the lady mouse did.

"Do you think we shall have an adventure?" she asked her rabbit friend as they started off once more.

"Oh, we may have," answered Uncle Wiggily. "I generally have at least one a day, and I haven't had any as yet."

"Well, I hope if you do have one it will be nice," went on the lady mouse. "If we should happen to meet the Pipsisewah now, or the Skeezicks or the Skuddlemagoon—oh, dear!" and she shivered until her tail shook.

"Don't think about such unpleasant things," begged Uncle Wiggily. "Johnnie Bushytail and I did happen to meet the Bazooka yesterday, but, very luckily I had Johnni's pencil to make a black mark on the bad chap's white nose. That scared him, so he let us alone."

"Have you a pencil now" asked the lady mouse, sort of hopeful like and expectant.

"No," answered Uncle Wiggily, "I haven't. Have you?"

"I left all my pencils in school," spoke the lady mouse. "But still I have something that belongs to Johnnie Bushytail's little brother Billie. It is Billie's knife."

"How did you get Billie's knife?" Uncle Wiggily wanted to know. "Did he lose it in the woods as Johnnie did his sharp pencil If he did, I'm glad I didn't run over it with my auto tires, for a knife makes a much larger hole than does a pencil."

"No, Billie didn't lose his knife," said the lady mouse. "I took it away from him in school. He had it out, making a willow whistle. Of course I couldn't allow that when the other animal children were studying their lessons, so I took Billie's knife away from him. I have it now," and she held it up. She had been carrying it in her little paw bag.

"I suppose Billie felt badly at losing his knife," suggested Uncle Wiggily, for he remembered how he, too, had once been a little rabbit boy, going to school. And he used to do tricks himself.

"Yes, Billie did feel badly," said the lady mouse teacher. "But I am not going to keep his knife. In fact I was on my way, when you met me, to walk around by Billie's tree-house and give it back to him."

"The I'll ride you around that way in my auto," said Uncle Wiggily. "Billie will be very glad to get back his knife. But I hope he won't make whistles with it in school again."

"I don't believe he will," said the lady mouse teacher with a smile that made her whiskers curl. And Uncle Wiggily twinkled his pink nose, so the two of them looked quite nice as they rode along together in the rabbit gentleman's auto, Miss Mouse holding Billie's knife.

All of a sudden, when everything was going along nicely, and they were almost at Billie Bushytail's house, Miss Mouse gave a scream.

"What's the matter?" said Uncle Wiggily. "Did you see a bad cat" He knew Miss Mouse wouldn't scream if she saw Jole, Tommie or Kittie Kat, for they were friends of hers.

"No, I didn't see a cat," spoke the lady mouse, as she held tightly to Uncle Wiggily's red, white and blue striped rheumatism crutch. "But, look! What's that?" and she pointed to some animal coming out from behind a sassafras bush.

"Oh, dear me! The bad old Bazooka again!" sighed Uncle Wiggily. "I hoped that we wouldn't meet him, but we have.

"Indeed, you have!" gurgled the Bazooka, wrinkling up his fluffy, white nose. "And this time, unless I am greatly mistaken, you have no pencil with which to give me bad, black marks."

"Alas! I have no pencil!" sadly said the lady mouse.

"Nor I," added Uncle Wiggily.

"Then I guess it's my turn to have some souse!" spoke the Bazooka with a rough and ready smile. "First I'll take some of your souse, Uncle Wiggily, and then I try a little from the ears of Miss Mouse, and then——"

"Stop!" cried the lady mouse, in her bravest voice. "You sha'nt have any of my ear souse, nor Uncle Wiggily's either!"

"Why not" asked the Bazooka, impertinent like and bold.

"Because if you come near us I'll take Billie Bushytail's knife," said the lady mouse, "and I'll scratch your soft, fluffy white nose worse than if a cat's claws had tickled you. That's what I'll do!" and she held up Billie's knife with its four blades.

"Oh, wow! Fooled again. No souse for me!" cried the Bazooka. Then, being very very much afraid of having his soft nose scratched, away he hopped, leaving Uncle Wiggily and the lady mouse safe. Off they rode in the auto, giving Billie back his knife, and they thanked him for the use of it.

So it all turned out well, you see, and if ginger snap doesn't jump over the chocolate cake when they're playing lollypop tag with the sugar cookie, I'll tell you next about Uncle Wiggily and Jackie's card.

Appear At Your Best—Instantly

If you receive a sudden caller or an unexpected invitation you can feel confident of always appearing at your best. In but a few moments it renders to your skin a wonderfully pure, soft complexion that is beyond comparison.

Madame Catherine Breshkovskaya, the "Little Grandmother of the Russian Revolution," has been spending some days in Toronto. "On Tuesday last," says The Toronto Times, "the Speaker's Chambers, Parliament Buildings, were lovely with Ophelia roses, palms and ferns, when Lady Hearst held a reception in honor of Madame Breshkovskaya. The guest of honor wore a simple black satin gown with white lace collar and cuffs. Madame Breshkovskaya was accompanied by Mrs. F. MacLeod Harper. Lady Hearst was assisted at the tea table by Miss Hearst, the Misses Bristol and Miss Cringan."

A wedding of much interest to Victorians took place in Vancouver on Saturday morning when Miss Nora McLean Bentley, second daughter of Mr. and Mrs. N. Newcomb Bentley, of Edmonton, became the bride of Franklin Tisdale Price, of Simcoe, Ont. The ceremony took place at the Chalmers Presbyterian The bride was given away by Mr. Justice Galliher, of this city. There were two attendants, Mrs. Duncan Ross, of Victoria, cousin of the bride, as matron of honor, and Miss Bessie Macpherson, bridesmaid. Included in the out-of-town guests for the marriage there were present from Victoria: Mr. Justice and Mrs. Galliher, Miss Kitty Fraser, Miss Jean Tolmie and Lieut. Evan Hanbury.

ATTRACTIVE FEATURES AT TO-MORROW'S FETE

Varied Attractions For Garden Party at Government House; For Girls' Home

For the entertainment of visitors to the garden party to be held at Government House to-morrow afternoon, in aid of the funds of the Local Council's Girls' Home, an excellent programme has been prepared. In the afternoon from three till five a concert will be given by the Foundation Company Band under the conductorship of Bandmaster Lou Turner.

Between the hours of five and seven the following attractive variety programme will be given:

Irish folk dance, V. D. O. B. Club, Misses Hunter, Youngs, Welsh, Taylor, Jewell, Smith, Duncan, Bailey, Cruickshanks, Miss Enid Ruddock (solo); song, selected, Miss Kathleen Leslie, of London, Eng.; "Spring Dance," Miss Berenice Ruddock; violin duet, Miss M. Scurrock and Master H. Cassett; song, selected, Mrs. Day; Spanish dance, Miss Leona Hunter; "O Frenchy," Miss Pearl Bayton, with Cowper Newbury; song, selected, Mrs. Hamlet; song and dance, "La Belle Parisienne," Miss K. Leslie; Old English folk dance, V. D. O. B. Club; Rose dance, little Mimi Ruddock; song, "Angus MacDonald," Miss Olive Detlor, of Regina; "Mickey," Baby Burnett; Tarantelle, V. D. O. B. Club; song, selected, Miss Gertie Burgess; Russian dance, Miss Berenice Ruddock; violin solo, Miss Margaret Scurrock; impersonation, Miss K. Leslie; Romany song and dance, Miss Addie Norris and the V. D. O. B. Club.

In addition to these features there will be a tennis tournament, clock golf competition, a shooting match, fortune telling booths, a candy stall and a "flower surprise," a novel innovation. Afternoon tea will be served on the lawns throughout the afternoon, also ice cream and soft drinks.

ALL THE SAME LIKE ALGY.

"Algy, you always remind me of a puzzle."

"In what way?"

"Simple, when you know it."—Omaha News.

Girls! Women! Do Your Looks Satisfy You?

Is your color fresh and rosy? Does the glow of health shine out in your cheeks?

Do your eyes glisten with health, or are they dull, dark circled and tired?

Alas—your bloodless face indicates trouble. Your watery blood menaces your health. What you need is the toning, cleansing assistance of Dr. Hamilton's Pills. They will clean out the overplus of bile that makes your skin so murky—they will put new life into the stomach; brace up digestion and make you eat sufficient food to get a blood supply ahead.

Good blood always means more strength and vigor—that's why Dr. Hamilton's Pills are so successful in building up weak, thin folks.

You'll feel better at once, your looks will improve and that half dead, lazy feeling will depart, because Dr. Hamilton's Pills enliven and fortify every ailing organ in the body.

Ask your friends, your neighbors—most anyone can tell you of the enormous good done by Dr. Hamilton's Pills, but beware of any substitute.

NAVY LEAGUE CHAPTER PLANS GARDEN PARTY

To Be Held at Regent's Home July 9; Support Boys' Brigade

An interesting meeting of the Navy League Chapter, I. O. D. E., was held on Friday last at the Jones Building, the Regent, Mrs. Doig, occupying the chair. This Chapter devotes most of its energies to works tending to aid in the welfare of the naval branch of the service. In this regard it was decided to render all support possible to the Boy's Naval Brigade movement in connection with the Navy League of Canada and a donation was voted for this purpose.

Arrangements were made for the forthcoming garden fete to be held on July 9 at the residence of Mrs. D. Doig, at the corner of Fairfield Road and Cook Street. The gardens, which have been the scene of many successful gatherings of this kind in the past, are most suitable for open-air entertainments. The Foundation Band has kindly promised to give its services to the Chapter for this occasion, and a musical programme is being prepared by Miss Long, to include attractive numbers by well-known artistes. The programme will also include classical dances by a party of well-known local young ladies. Afternoon tea will be served under the trees, and various stalls, including home-cooking, ice cream and home-made candies, fancy work, etc., will occupy places in the garden. There will be a fortune-telling tent, spinning jennys' tennis, and other diversions which promise to provide a very pleasant afternoon for those attending.

In connection with the projected visit of Admiral Lord Jellicoe and his squadron of British warships to this city the Chapter is arranging for help in connection with the movement to supply socks to the sailors of that fleet, and all those wishing to assist in knitting, can secure wool by applying to the I. O. D. E. rooms in Jones Building, or by communicating with Mrs. Moore, telephone 3250R.

Why Actresses Never Grow Old

Nothing concerning the profession seems more puzzling to the dear old public than the perpetual youth of our feminine members. How often we hear remarks like, "Why, I saw her as Juliet forty years ago and she doesn't look a year older now!" Of course allowance is made for makeup, but when they see us off the stage at close range, they need another explanation.

How strange women generally haven't learned the secret of keeping the face young! How simple a matter to get an ounce of mercolized wax at the drug store, apply it like cold cream, and in the morning wash it off! We know how this gradually, imperceptibly, absorbs old cuticle, keeping the complexion new and fresh, free from fine lines, sallowness or over-redness. We know, too, that this mercolized wax is the reason actresses don't wear freckles, moth patches, liver spots, pimples and the like. Why don't our sisters on the other side of the footlights learn the reason, and profit by it?—Theatrical World.

CHARMING GARDENS AT HATLEY PARK

To Be Scene of Garden Party June 25; Florence Nightingale Chapter, I.O.D.E.

A quaint "wishing well" reminiscent of the English country-side is among the many charms hidden in the beautiful grounds at Hatley Park where the Florence Nightingale Chapter, I. O. D. E. will hold a garden-party on June 25. Other lovely features include a stately Italian garden, while in direct contrast to its formal beauty is a quaint Japanese garden with its low rustic bridge under which a dancing creek wends its way. Wonderfully varied is the scenery in the grounds. At one point a waterfall lends a piquancy to the view while in another the sea can be glimpsed in all its beauty, and in the background the lofty Olympics rear their snowy heads.

Feeling that the beauties of the grounds are in themselves sufficient attraction, the committee in charge of the garden party have refrained from arranging any of the booths usually associated with such affairs. Tea and ice cream will be served during the afternoon, however. Arrangements have been made with Cameron and Caldwell whereby a series of Tally-hos will convey patrons to Hatley Park and back, the outward bound cars leaving Lillie and Woods, 1316 Douglas Street at the hours of one, two, three and four p. m.

TO HOLD FETE AT JUBILEE HOSPITAL

The Dr. O. M. Jones Chapter, I. O. D. E., has been carrying on an excellent work along child welfare lines by providing milk for ill-nourished school children. Such an undertaking, however, requires considerable money, and to enable them to branch out and extend their sphere of activity along this line the chapter plans to hold a garden fete on July 19.

The fete will be held in the grounds at the Royal Jubilee Hospital. Plans have been made for booths for the sale of home cooking, fancy work, a generous goose for the kiddies, while tea and ice cream will be provided. A musical programme will be arranged for the afternoon.

The chapter has changed its day of meeting from the second to the third Thursday in each month, and in common with all other chapters the meetings are now held in the new headquarters in the Jones Building.

Capt. Will J. Green, who for the past year has been serving with the American Y. M. C. A. overseas and latterly with the Citizenship Department of the Canadian Association, is expected to return to Edmonton about June 10 to resume his position of general secretary of the Association in that city.

LARGE DWELLING HOUSE IS GUTTED BY FIRE TO-DAY

Incendiarism, In Opinion of Fire Chief, Started Worst Blaze For Year

Fire, supposed to have resulted from incendiarism, gutted a large unoccupied house at the soutwest corner of Burdett Avenue and Vancouver Street this morning. The conflagration, which required the attention of the fire department for about an hour, was the worst which has occurred in the city for the last year.

The firemen at headquarters and the Yates Street Hall were called to Burdett Avenue at thirty-eight minutes past ten. When Chief Stewart came within sight of the large house, which during the influenza epidemic was used as an emergency hospital, he perceived that the flames had already gained a footing, though no one, apparently had perceived the conflagration, huge volumes of smoke were pouring from the roof, and the flames were plainly visible. The fight was personally conducted by the Chief and Deputy Chief Munroe, and it was not many minutes before three powerful streams of water were trained upon the blaze.

The flames which had started on the ground floor had spread quickly upward to the second story and thence through the attic to the roof. It was necessary to follow the blaze upwards with the streams of water, and it was an hour before all the blaze was subdued. By this time the whole roof and the attic had been destroyed. The ground floor suffered less, though several of the partitions were very badly burned.

There is no doubt in the mind of Chief Stewart that the fire was started by an incendiary, for the flames broke out in a hallway far removed from sparks. It has been discovered that neighbors have recently seen lights in the house at night, and it is suspected that some party has been in the habit of using the building as a rendezvous.

The house, which belongs to the Roman Catholic Church, is insured for $10,000, but no estimate of the damage done this morning has yet been made. Two other roof fires caused by sparks occurred in the building this year.

RETURNED SOLDIER GETS APPOINTMENT

H. N. Flynn Appointed Assistant Secretary of Board of Trade; Starts at Once

Owing to the expansion of the Board of Trade so as to embrace every line of activity in the city's life, it has been found necessary to add to the secretarial staff. At the council meeting of the board this morning it was decided to appoint H. N. Flynn, a returned soldier, as assistant secretary. Recently the board has increased its membership a great deal, and numerous new committees and sections have been formed which entail a large volume of work on the office staff.

Mr. Flynn before going overseas was engaged in a commercial occupation and is well informed on the business and industrial work of Victoria. He will take over his new duties immediately, assisting Secretary F. Elworthy, who has held office for twenty-eight years.

Two members of the council submitted their resignations. The resignation of James Forman, who in his letter stated that business prevented him from attending the meetings, was accepted with regret. The members were unable to see their way clear to accept the verbal resignation of Charles Jones. D. O. Lewis was elected to the council, vice Mr. Forman. Stewart Williams was elected as chairman of the reception committee.

COMMISSIONERS TO MEET

First Meeting of the Library Commission Will Take Place on Friday Next.

Friday morning next has been set for the first business meeting of the recently-appointed Library Commissioners at the office of M. B. Jackson, K.C. The gathering will be more in the nature of a preliminary one preparatory to organization work and each member of the Commission will contrimute his and her opinions for the programme prescribed by the Act passed at the recent session of the Legislature.

Miss Helen Stewart, Chief Librarian of the Victoria Public Library; M. B. Jackson, K.C., Liberal member for the Islands; and Professor Sedgwick, Professor of English at the University of British Columbia, are the commissioners. The Act also provides for the appointment of a superintendent, an announcement concerning whom will be made at an early date.

POINT GREY SCHOOLS TO GET NEEDED GRANT

Government Agrees to Expend $20,000 During Present Fiscal Year

Hon. J. D. MacLean, Minister of Education and Provincial Secretary, announced this morning that an allocation of $20,000 had been agreed upon by the Provincial Cabinet as the amount to be expended during the present fiscal year in respect of schools at Point Grey.

A deputation waited upon the Minister last week and made a special plea for assistance, mentioning the sum of $40,000 as being requisite to the needs of the municipality. Point Grey refrained from incurring school construction expenditure during the war and as a consequence it has not been possible to cater adequately for the needs of its scholars. In the meantime many of the younger generation have been forced to get their schooling in Vancouver proper. The present grant is to remedy these circumstances.

HEAVY IMPORT OF SILVER BY INDIA

Half Million Ounces Absorbed During War Created Advance

The great driving force operating in the silver market for the last few years is clearly indicated by the statement made by the Secretary of State for India, namely, that Indian net imports of silver during the war had amounted to 516,202,000 ounces, about $516,000,000 (sufficient to coin about 1,500,000,000 rupees). In addition to this enormous amount of precious metal, net imports of gold totaling £21,400,000 were received during the same period.

Commenting upon the recent advance in silver, Samuel Montagu & Co., of LLondon, call attention to the remarkable coincidence that a war, brought about by Germany, should have been the original cause of the relapse in the value of silver from its ancient high level, and another war, half a centuary later, for which the same power was responsible, should have been the actual cause of a phenomenal recovery. The quotation of 58d for silver in London recently is a record since January, 1877.

The following prices, at any advance on which the principal silver coins (full weight, London) would show a profit when melted, are of interest, though it should be remembered that with the exception of India and the United Kingdom, the amount of such coins in circulation is comparitively small:

Rupee (at 1s 8d)	53.81d
United States	59.9 d
Dutch 2½ guilder	60.45d
Five-franc piece and similar coin	60.87d
Sterling silver	66. d
Mark	67.3 d

Of these continental banks of issue which differentiate between gold and silver holdings in their return, the Bank of Spain shows the largest amount, namely, $125,000,000. The Bank of France has about $60,000,000; Swiss National Bank, $13,600,000; Imperial Bank of Germany, $5,000,000, and the Bank of Netherlands, $2,500,000.

ARITLLERY BOYS WANTED

To Attend Meeting to Arrange Reception for 58th Battery, Now on Way Home.

All former members of the 58th and 62nd Batteries and the 15th Brigade Ammunition Column are requested to attend a meeting to be held in the rooms of the Comrades of the Great War, corner of Douglas and Courtney streets, on Saturday evening at 8 o'clock. Arrangements will be made to provide a fitting welcome for the three officers and 78 other ranks of the 58th Battery, which is now crossing the Atlantic on the troopship Scotian. It is expected that the boys will reach here about the end of this month.

Most of those returning on the Scotian are native sons. The 62nd Battery and Ammunition Column comprised more local boys than any other units which left this city, and were accorded a most enthusiastic send-off. It is hoped that the home-coming will be just as spontaneous in its enthusiasm.

The returning party left here on May 28, 1916, and trained at Petewawa, Ont., and at Witley, Eng.

BY-LAW IS QUASHED

Barber Shops Will Continue to Close at Seven o'Clock.

Victoria barber shops will continue to close at 7 o'clock in the evening, the barber by-law framed to make closing at 6 compulsory having been finally quashed by the City Council last night. Alderman Dinsdale observed, "Here we spend $7,000 on bringing tourists here, and when they get to the city they can't get a shave, or a wash after 6 o'clock." It was suggested that the union shops could open an hour later if they desired.

CONCERT FOR SOLDIERS

First Presbyterian Church Choir Will Entertain in Y. M. C. A. To-night.

Under the leadership of Mrs. Jackson Hanby, the choir of the First Presbyterian Church will give a concert in the lobby of the Y. M. C. A. and Blanshard Street, this evening at 8:30 o'clock. The choir will be reinforced by the orchestra of the George Jay School. R. W. Hudson, tenor, and Master Smith, violinist, will also assist.

This entertainment is particularly for returned soldiers and their families and friends.

Intermedate Baseball.—The Oak Bay team, leaders in the intermediate baseball league, will play the Reliable Messenger Service team at Beacon Hill tonight, the Oak Bay team will be as follows: Calvert, p.; Miller, 1b.; Brynjolfsen, s.s.; Beecroft, 2b.; Danes, c.f.; Goodacre, c.; Talbot, r.f.; Winters, l.f.; Emery 3b.

BACK FROM OVERSEAS

LIEUT. GORDON SLOAN

son of Hon. William Sloan, who returned from overseas on Sunday. He served with the Royal Air Force.

PREMIER HEARS FROM CHAIRMAN HANNA ON VICTORIA-SIDNEY LINE

In response to the message of Premier Oliver, regarding immediate operation of the Victoria & Sidney Railway, D. B. Hanna, Chairman of the Board of Directors of the Canadian National Railways, wired this afternoon,

Toronto, June 17.

Premier, Victoria.

RE OPERATION OF SIDNEY LINE.

If an expenditure of $500 only is necessary to enable us to operate, and if Receiver will give us permission to do so without charge, we will have no objection to incur this expenditure. Have wired Mr. Lewis to see you.

D. B. HANNA,
Chairman Board of Directors, C. N. R.

NO TOUR OF ISLAND BY BOARD IS LIKELY

Proposed Three Days' Outing Requires Fabulous Sum

There is little likelihood of the Victoria Board of Trade conducting an educational tour of Vancouver Island for the benefit of its members. The committee appointed to arrange details for the trip reported that an almost fabulous sum would be required to undertake the three-day outing over the E. & N. Railway to Courtenay, Cumberland, Duncan and various other points of interest.

At the last annual meeting, Hon. T. D. Pattullo, Minister of Lands, advised that business men of the cities take a trip through the province and acquaint themselves with the wonders that they knew so little of. Subsequently the boards of trade in Vancouver and Victoria communicated with each other and details for the trip were planned. The local men then decided that it would probably be better for them to become acquainted with the Island first and accordingly a committee was instructed to arrange the matter.

At the council meeting this morning the committee reported that the three-day trip would cost approximately $1,200, about $3.75 a mile. It would also be necessary to insure a total of 105 passengers. The members gave vent to a sigh of exhaustion when the figures were read. No action was decided upon, the matter being referred back to the committee, where it seems likely to rest.

A communication from the Vancouver Board stated that they had practically completed arrangements for the trip through British Columbia. They hope to leave the Terminal City on Thursday of next week, proceeding to Prince Rupert thence over the Grand Trunk to Prince George, making stops at Vanderhoof and Telkwa. From Prince George the party will take a steamer down the Fraser to Quesnel, where motor cars will convey them to the railhead of the Pacific Great Eastern. It is estimated that the trip will cost $100. A number of the members of the local board are planning on making the trip.

British Campaigners to Meet.—The regular monthly meeting of the British Campaigners will take place on Thursday evening at the Campaigners' new rooms.

STOMACH TROUBLES ARE DUE TO ACIDITY

Tells Safe, Certain, Speedy Relief for Acid Indigestion.

So-called stomach troubles, such as indigestion, gas, sourness, stomach-ache and inability to retain food are in probably nine cases out of ten, simply evidence that excessive secretion of acid is taking place in the stomach, causing the formation of gas and acid indigestion.

Gas distends the stomach and causes that full, oppressive, burning feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excess development or secretion of acid.

To stop or prevent this souring of the food contents of the stomach and to neutralize the acid, and make it bland and harmless, a teaspoonful of bisurated magnesia, a good and effective corrector of acid stomach, should be taken in a quarter of a glass of hot or cold water after eating or whenever gas, sourness or acidity is felt. This sweetens the stomach and neutralizes the acidity in a few moments and is a perfectly harmless and inexpensive remedy to use.

An antiacid, such as bisurated magnesia which can be obtained from any druggist in either powder or tablet form, enables the stomach to do its work properly without the aid of artificial digestents. Magnesia comes in several forms, so be certain to ask for and take only Bisurated Magnesia, which is especially prepared for the above purpose.

SMALL PARTY ON ROYAL GEORGE

Lieut. Kenning Is With Men Now Homeward Bound

The British Columbia Returned Soldiers' Commission, Parliament Buildings, has been advised by telegram from the O. C. Clearing Depot, Halifax, N. S., that the following party from the "Royal George," left there for this district on June 16:

For Victoria.

Pte. F. Morishige, c/o K. Ishie, 857 Pandora St.

Pte. E. T. Stewart, 221 Oswego St.

Spr. W. McHugh, Langford, P. O.

Pte. E. H. Gandy, 1500 Forest St.

Sgt. J. H. Hall, 2518 Cedar Hill Rd.

Sgt. A. Riddle, 35 Obed Ave.

Lieut. G. C. Kenning, 271 Michigan Street.

For Island—Gnr. E. Trehearne, Union Bay; Pte. W. Piercy, Courtenay; Corpl. J. W. James, Nanaimo; Pte. R. H. Cousens, Mayne Island.

Without addresses, for dispersal at Victoria—Pte. C. W. Willmott, Gnr. R. F. Telfer, Pte. W. Skinner, Pte. J. Gann, Pte. A. Kenhead, Pte. T. J. E. Williams, Cpl. G. I. Taylor, Pte. R. T. Quick, Pte. S. G. Cohen, Sgt. J. C. White, Pte. P. Vine, Pte. I. C. Smith, Pte. J. F. Kimball, Pte. S. K. Beard.

For dispersal at Victoria (no notification)—Pte. W. R. Lacey, Pte. N. Enquist, Spr. A. Hawarth, Pte. T. A. Agar, Pte. E. L. Fitzgerald, Sgt. H. Cocks.

For Victoria (admitted to hospital, Halifax)—Cpl. T. H. Dunn.

CALLING FOR TENDERS ON OKANAGAN PROJECT

Minister of Lands Announces First Unit to Be Eight Miles of Ditch

Hon. T. D. Pattullo, Minister of Lands, announced this morning that tenders are now being called for in connection with the development and irrigation work on the Government's 22,000-acre settlement area in the area in the Southern Okanagan Valley.

The first unit of construction, to which the tenders will apply, is eight miles of irrigation ditch. All bids are to be in the hands of the Minister on or before July 8, upon which day they will be opened and the contract awarded.

It is the intention of the Department to push ahead with this important development work and just as soon as the contract has been let there will be no delay in getting the initial programme under way.

MAKURA'S CREW REFUSE TO HANDLE SHIP'S STORES

Vancouver, June 17.—The crew of the Australian liner Makura, now in port here, refused yesterday to take on ship's stores, on the ground that handling the stores would be unfair labor because teamsters are on strike. The crew were fined two days' pay. Another attempt to have the stores put on board will be made to-day.

Co-operative Company.—The United Co-operative Association held a meeting last night at which Comrade Joseph Food was elected president; Comrade Ashdown secretary, and Mr. Winsby treasurer. The various service oganizatoons are represented on the directorate as well as the Civil Service. Offices will be opened at once for the purpose of issuing shares in the company. Groceries, meat and fish will be the first commodities handled when the store is opened.

☆ ☆ ☆

Treat For Resthaven.—Through the courtesy of the Y. M. C. A., Skipper Francis, the versatile crippled athlete, will furnish a programme of films, song and story at the Resthaven Military Hospital to-night. For a couple of years the "Y" has provided a weekly entertainment of movies and music for the soldier patients at this institution

THINKS ARRESTS ARE A MISTAKE

Winnipeg Free Press Does Not Approve Action Taken in That City

Winnipeg, June 17.—Anticipating this morning's developments, The Manitoba Free Press to-day gives prominence to an editorial denouncing "strong-arm methods," saying it "emphatically dissociates itself from any strong arm policy of breaking the strike."

It says:

"The Free Press declares that in its judment actions of this character would have an effect diametrically opposite to that which its promoters attribute to it. It would complicate an already intricate situation; it would prolong and embitter the strike."

"It is true that things have been done and words have been uttered which might very properly be made the basis for actions in the courst, but in the institution and prosecution of these actions there must be scrupulous regard for all those provisions of the law which are the protection of the individual.

"The strike situation, as The Free Press has set forth repeatedly, is that the labor bodies of Winnipeg have been misled into an impossible and disastrous position by Red leaders, who have usurped power. The only hope of an ending to this strike which will not leave behind it lasting bitterness is that the members of the unions on strike will come to realize for themselves how impossible these leaders are and how fatal to their own interests and to the peace of the community are the policies they advocate. The enlightenment of the workers is proceeding apace, and the fall of these leaders is inevitable if they are not, by a blunder that would be unforgivable, given an opportunity to appear as martyrs in labor's cause."

NO STRIKE TO-MORROW OF RAILWAY SHOPMEN IN THE DOMINION

Montreal, June 17.—Late this afternoon it was announced that the Dominion-wide strike of the Canadian Railway Shopmen set to begin to-morrow had been postponed.

GERMAN CABINET DIVIDES EVENLY

Reuter Dispatch From Berlin Says Half Ministers Would Sign Treaty

London, June 17.—Seven members of the German Cabinet favor signing the amended peace terms and the other seven are opposed to signing, a Reuter dispatch from Berlin says.

At Weimar.

Weimar, June 17. — (Associated Press)—The new terms of the Allied Powers reached here late last night and the first apparent effect upon the German leaders who had remained awake to wait for the terms was depression. A report passed rapidly through the old castle where the Government heads are residing temporarily, that the signing of the peace terms by Germany was highly improbable.

No one would talk for publication, but every official and every member of the Foreign Office available expressed the deepest pessimism and resentment at what they called the cruelty of the terms.

The Germans were especially embittered over a report that a French mob had stoned the helpless German delegates at Versailles.

TO-DAY'S BASEBALL

Boston, June 17.—(American League):

Morning game—	R.	H.	E.
Cleveland	4	11	1
Boston	3	4	1

Batteries—Wood and O'Neill; Jones and Schang.

Tourists' Guide.—The Victoria and Island Development Association has in course of preparation a pamphlet which will be known at "The Official Tourists' Guide," and which is intended to meet the demand of the large number of visitors who are now visiting Victoria. The Association's supply of literature has been almost depleted, and steps have been taken to replenish it.

☆ ☆ ☆

Defeats Monterey Nine.—The Willows School team defeated the Monterey team in a baseball game last night by a score of six runs. The batteries were: Willows—Brandon and McIntosh. Monterey—Owens and Punnett, Davenport and Bowers.

☆ ☆ ☆

St. Mark's Men's Club.—The members of St. Marks Men's Club spent an enjoyable time last night motoring around the peninsula. Members with cars generously invited the other members, and the Innovation proved a distinct success. The hope was expressed that the auto rides would frequently take the place of the usual meetings during the summer months.

☆ ☆ ☆

Housing Conference.—Major J. W. Clark conferred with Mayor Porter this morning concerning the Dominion Housing scheme. The whole matter was discussed generally as a preliminary to a conference between representatives of the city and the Government to be held within the next few days.

Lodger (facetiously)—"This steak is like a cold day in June, Mrs. Bordem—very rare."

Landlady—"And your board bill is like March weather—always unsettled."

Sinking a "U" Boat

From The Toronto Globe.

In his book "'Q'-boat Adventures" (Herbert Jenkins, Limited, London), Lieut.-Commander Harold Auten, V.C., tells many vivid stories of actual occurrences in the battle against the submarines. One of the best is that relating to the last and successful fight of a "Q"-boat commanded by himself and known as the Stock Force, a small coastal collier fitted up as a U-boat hunter under Auten's supervision. The battle took place on July 30, 1918. In part the story reads:

I reached the bridge just in time to see the torpedo, then about fifty yards off, coming direct for the ship. She was coming very slowly in the end, having been fired at a long range and appearing to have very nearly run her distance. It looked to everybody on the bridge as if the torpedo would pass ahead, but suddenly, to my amazement, it took a turn in toward the ship and struck us abreast of No. 1 hatch.

The damage done was indescribable. The ship was only 161 feet over all, with a beam of twenty-nine feet, and the torpedo had hit direct on the second watertight bulkhead, forcing it clean through the other side of the ship. The forward end of the bridge went entirely, and all I recollected was going up in the air and coming down to find myself underneath the chart table. Probably if I had been a lighter weight the chart table would have won.

The whole foredeck was bent, the derricks were blown overboard, and up went an awful shower of flotation planks, unexploded twelve-pounder shells and debris caused by the explosion. This lot came down with an awful clatter, wounding all the people on the bridge except myself, by virtue of having won the race with the chart table.

Immediately after this there came down a huge deluge of water that had been thrown up by the explosion. This drenched us all to the skin, and, combined with the explosion, caused many who were in the vicinity to become violently sick. I went down to find out the number of our casualties. To my intense surprise I discovered that there had been nobody killed, which was marvellous considering that some of the men were going to their stations right alongside where the torpedo had exploded.

A number were wounded, and these were quickly got down on to the 'tween deck. On looking round I found one poor fellow, an officers' steward named Sterling, pinned in a mass of wreckage underneath a twelve-pounder gun. It would have taken a working party an hour to get him out, and time was valuable.

The ship was settling down by the head, and I wondered how long she was going to float, so I told him that he would have to remain where he was for the present, and we would get him out at the first opportunity. He said quite cheerfully: "All right, sir, I'll lay quiet until you let me know."

I asked him some time afterwards what he recollected of this event. "Well, sir," he said, "I lay quiet there after you had left and the 'abandon ship' party had gone, and the first thing that I remember was the black cat making her way forward."

The water had risen considerably, and the cat, it appeared, had been blown up in the explosion, and had ended up by being buried in some debris and in the water. She had managed to extricate herself from this, and the steward watched her get up on the top of a plank, very carefully shake herself like a dog, and then with her hair all standing up on end, her tail up, start to pick her way gingerly and carefully over the debris to a dry spot.

The narrative then describes how the "panic party," sometimes called the "abandon ship party," left the vessel in apparent confusion and fear, while the surgeon, up to his knees in water attended to the wounded on the 'tween deck. The two after four-inch guns were not damaged although the cover had been blown off one. The crew quickly made a temporary cover for this, as it would have been fatal to all had the submarine sighted guns or men still on board. The water was rising rapidly everywhere except in the engine room, which remained comparatively dry. Then the submarine came closer, and the narrative proceeds:

After having carefully surveyed the ship through her periscope the submarine came to the surface about half a mile off and lay there. Two men appeared on the conning tower, intently watching the ship for any suspicious movement. . . . When she got down on the port bow, about 400 yards distant, she stopped again and watched the ship. She was a very shy bird. Everything on board lay absolutely quiet and hardly daring to breathe.

Time after time the after gunner and myself peeped through the little crack we were using as an observation position, but, no, the submarine was not yet in a satisfactory position to open fire on her. At last she reached the fatal spot.

"Submarine bearing, red 90, range 300 yards, stand by," I whispered through the voice pipes; then a second or so later: "Let go."

Down fell the shutters of both guns with a crash. I started violently at the noise. It must have been the surprise of her life for the submarine. The after four-inch gun being stowed on the port beam, was right on the bearing when the flaps went down, and her first shot passed over the top of the conning tower, bringing down the periscope and wireless. The second shot hit the conning tower, and, from reports afterwards received from the abandon ship party, which was about seventy yards ahead of the submarine, shifted this bodily on one side, and blew one man, evidently the commanding officer, into the air.

By this time the forward four-inch gun had trained round, and her first shot hit on the hull of the submarine, just below the conning tower. After this shot the submarine seemed to shake herself and she sank a little by the stern, the bows coming up to a corresponding angle. A lot of loose smoke, and what appeared to be steam, began to pour out of her. The first shot from the forward gun had evidently exploded inside the submarine. She now presented a large immobile target into which shell after shell was poured. Gradually she sank by the stern, her bows coming right up out of the water.

During this time the abandon ship party . . . . was only about seventy yards ahead of the submarine. When the flaps went down, the white ensign went up and the first gun fired, they got up in the boat and yelled themselves hoarse, waving their caps and cheering time after time until the Hun sank.

Auten then tells of the great difficulty experienced in keeping the Stock Force afloat after the unwounded members of the crew had rescued the man pinned under the twelve-pounder gun, and who had made no sound during the trying time of luring the submarine and sinking her. The ship's wireless had been destroyed when the torpedo hit her and she could not ask for help. Fortunately some trawlers and torpedo boats arrived just in time, and all the wounded and unwounded members of the "Q"-boat were rescued before she sank. Among the awards made by the Admiralty for this action was a Conspicuous Gallantry Medal for the man who had been pinned under the gun and had never made a sound, though suffering greatly.

PEACE EPIGRAMS.

At the dinner last night to Mr. Edward Price Bell, the well-known American journalist, several epigrams were related about the peace terms. The American described it as "a peace with a punch." An English speaker said he had heard it described as "a peace with a vengeance." I may add as the expression of the feelings of the ordinary man who has had to work through the 10,000 words that it is a peace that passeth understanding.—Manchester Guardian.

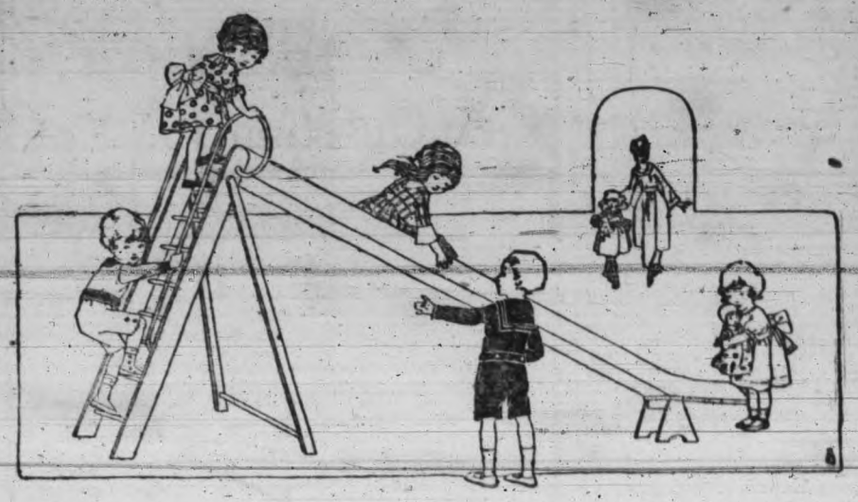
To Grow Hair On Bald Heads

Specialist Gives Simple Recipe That Works Fine.

Thousands of people suffer from baldness and falling hair who, having tried nearly every advertised hair tonic and hair-grower without results, have resigned themselves to baldness and its attendant discomfort. Yet their case is not hopeless; the following simple home prescription has made hair grow after years of baldness, and is also unequalled for restoring gray hair to its original color, stopping hair from falling out, and destroying the dandruff germ. It will not make the hair greasy, and can be put up by any druggist: Bay Rum, 6 ounces, Lavona de Composee, 2 ounces, Menthol Crystals, one-half drachm. If you wish it perfumed add 1 drachm of your favorite perfume. This preparation is highly recommended by physicians and specialists and is absolutely harmless, as it contains none of the poisonous wood alcohol so frequently found in hair tonics. Ladies using this prescription should be careful not to get it on the face or where hair is not desired.

Boys' Washing Suits

Good Styles. Good Colors. Popular Models.



We are now showing in our Boys' Department a full range of "natty" Wash Suits, in good washing materials. The designs are the very latest and every one will make a pleasing little Suit for summer wear.

BLUE AND WHITE WASH SUITS
In Oliver Twist styles, of good material, nicely made and excellent design. To fit boys 3 to 5 years. Prices, $1.75, $2.75 and $3.00

"MIDDY" WASH SUITS
In white, trimmed light blue. Has full sailor collar, ornaments and black bow tie. A clean-looking little suit. To fit boys 3 to 7 years. Price. $3.50

RUSSIAN BLOUSE AND TUNIC WASH SUITS
With or without belts, all nicely trimmed to match. We have these in white, light blue, dark blue, also striped. These are "out of the ordinary patterns" and make good, comfortable suits for the small boy. To fit boys 3 to 7 years. Price, $3.50 and $4.00

RUSSIAN BLOUSE WASH SUITS
With or without belt; some with slash pockets. All are suitably trimmed, in all-white, blue and striped galateas. Nothing more up-to-date. In sizes 3 to 7 years. Price $4.50

BOYS' WASH BLOUSES
In all the latest designs, white, blue chambray and fancy prints. To fit boys 6 to 16 years. Price.. $1.50

BOYS' KHAKI SHIRTS
With collars attached; good cotton material. In sizes 12½ to 14 inches. Price $1.25

BOYS' KHAKI COTTON PANTS
Straight knee style. To fit boys 6 to 14 years. Price, $1.10.. $1.50

ALEXANDER BAFFLES A LARGE AUDIENCE

Mental Agility of Crystal-gazer at Royal Victoria Mystifies Beholders

It was as no stranger that Alexander walked upon the stage of the Royal Victoria Theatre last evening to open his week's engagement, as was indicated by the generous applause which greeted him from the full house before he spoke. Judging by the welcome he was accorded, fully half of the large audience must have been composed of persons who had attended and enjoyed the performances he gave a year ago. And the spell this unique combination of sleight-of-hand artist and mental mystery cast over his audience was as complete as on his former visit. From the rise of the curtain to the close of the evening's offering, he had the closest attention any audience could give.

To begin with, merely by way of limbering up for the more serious, and to him apparently the infinitely more exacting part of the performance, he did a series of sleight-of-hand acts that would be a credit to any entertainer who had devoted his undivided study to feats of legerdemain and omitted the undoubtedly extensive training which made possible the half-evening of mental gymnastics which followed. He extracted goldfish from the air as though he would rather fish this way than sit on the bank of the finest trout stream on Vancouver Island. He wrapped a blank slate in paper and unwrapped it to find writing on it. He placed his finger tips on an innocent-looking table top and lifted the piece of furniture without other aid. He swung a net in the air and there appeared in it a dove. These and other things he did, but the most incomprehensible thing was the making of a picture in colors of Sir Arthur Currie on a canvas that was blank when he suspended it before a glaring electric light, the features of the general taking form on the canvas as the mystified audience looked on. And a few moments later he reproduced the likeness of the late Hon. H. C. Brewster.

After a couple of dances by the young ladies of his company Alexander completed the process of mystification he had begun in the first half of his performance. He was careful to explain that he was possessed of and certainly laid no claim to supernatural powers. Several times during the evening he insisted he was not a mind-reader, but the net result of those words and the things he did was that his audience departed completely baffled for an explanation of his achievements.

He answered questions written on slips of paper by members of the audience and by them sealed in envelopes, and after he had answered them he opened the envelopes and read the questions to satisfy everyone that his answer and the question in each case were on all fours.

He answered scores of questions written by members of the audience on slips of paper as they entered the theatre and left lying during the performance on a table on the stage. Holding his crystal globe in his hand, he would cause his mind to leap from a real estate deal in Victoria to a Victoria soldier overseas or a questioner's mother in a far-away American city, as the case might be. After each answer he would have the questioner tell him if his remarks dealt with the person inquired about.

To make the mystery greater he would call out the Christian name and surname of each questioner, though to all appearances the only place the names could have been found was in the big heap of question papers piled in a confused mass on the table some distance from the performer.

Alexander emphasized that he was a man nothing out of the ordinary, being there merely to entertain those who had seen fit to attend the performance. It was a highly entertaining performance—a baffling display of mental agility.

The Theatres

TO-DAY'S AMUSEMENTS

Royal Victoria—Alexander in his performance of mystical and magic feats.

Pantages—Vaudeville.

Dominion—Pauline Frederick in "Paid in Full."

Variety — Mabel Normand in "Mickey."

Columbia—Monroe Salisbury in "The Millionaire Pirate."

Romano — Edith Storey in "Treasure of the Sea."

DOMINION

It is quite refreshing to find a really consistent story in motion pictures, but it is generally conceded that the productions of Paramount and Artcraft more nearly approach consistency than those of any other concern. This is especially true as regards "Paid in Full," the new Paramount photoplay starring Pauline Frederick, which is the bill at the Dominion Theatre this week. The play is a charming one and affords Miss Frederick a powerful characterization in which her artistry never is at fault. The effect is a satisfying performance in which an excellent supporting company appears to the highest advantage.

VARIETY

As a character study "Mickey," which will be shown at the Variety to-day, is a real work of art. You will never forget this adorable little waif. The story of "Mickey" is vivid with action, much of which is laid in that wonderful twilight zone of comedy where half the laughs are wet with tears.

Mickey is a sweet, wholesome, mischievous little girl, raised by her foster father, an old miner, and her foster mother, a wise old Indian squaw, in the mountain country far away from the glamor and chill of the city.

Later she is sent to the city "to make a lady of her" at the home of her aunt, a scheming, jealous hypocrite—and she doesn't find her path exactly strewn with roses. But throughout, the old cheerful, high spirits of little Mickey prevail, and with her sheer happy perseverance she conquers what seem unbearable burdens and difficulties for the little waif.

ROMANO

In "Treasure of the Sea," to-day's attraction at the Romano, wit matches wit in a fascinating manner. Jim Hardwick finds an old wreck, a ship that in the days of '49 carried a cargo of gold bullion. He attempts to make the gold his own. Margaret Elkins (Edith Storey) discovers it too, not knowing that Jim has preceded her. When she finds the gold is to be taken from her, and by the man she believes to have caused her father's ruin, she decides to let nothing stand in her way. The result is a series of thrilling incidents, in which there are moments of comedy. Jim Hardwick cannot help seeing the humor of the situation even while the woman he loves is leveling a gun at him. "Treasure of the Sea" is a satisfying sort of story.

Whild and beautiful scenery adds to the effect of the magnificent vigor of the action in "Treasure of the Sea." The picture was made on the California coast, where the gold fever of early mining days was at its height.

PRINCESS

With a sheaf of new songs, some never heard locally before, brimful of fun and humor "The Pantomime Rehearsal" will provide a most popular change from the usual straight comedy or farce productions witnessed at the above theatre.

Major Tayler, the stage manager for this production has the advantage of having secured the strongest company that has ever appeared in any one local performance. Topical songs will be introduced and a most enjoyable evening's entertainment is assured. Tickets are now available at the box office or reservations can be made by phoning 4625.

POSLAM MAKES SKIN SUFFERERS GLAD INDEED

Cover that itching skin disorder with Poslam—now you have real relief and your skin is being urged through the most persuasive, healing influence to throw off its diseased condition, to yield and become clear again.

Splendid response is the rule when Poslam is used for eczema, however stoubborn, acne, pimples, scalp-scale, herpes, all itching troubles, inflammation, undue redness of nose or complexion.

Sold everywhere. For free sample write to Emergency Laboratories, 243 West 47th St., New York City.

Poslam Soap, medicated with Poslam should be used if skin is tender and sensitive.

OLD-FASHIONED STUFF.

"He's old-fashioned."

"So?"

"Yes. Refuses to ask for a raise in pay on the theory that if his work warrants an increase in salary his employers will recognise the fact and hand it out to him."

CAME HERE TO PLAN FOR CONVENTION

Paul A. Cowgill Will Make Headquarters in Seattle Meanwhile

Paul A. Cowgill, Secretary of the Interstate Realty Association, was in the city during the week-end. He proceeded to Seattle to assist E. S. Goodwin, president, in making plans for the annual convention of the association in Victoria July 17, 18 and 19. Mr. Cowgill has been given office space in the E. S. Goodwin Real Estate Company's offices, and will make his headquarters in Seattle until it is time for the real estate men to leave for Victoria. In addition to being secretary of the Interstate Realty Association, Mr. Cowgill is secretary of the Portland Realty Board.

"Altogether the representation from Portland and vicinity will be between 350 and 400," Mr. Cowgill says. "Three hundred will come by automobile and probably fifty or 100 more will come by train. Of the total number there will be approximately 100 women in the Portland party."

Special Entertainments

Entertainment of the delegates will form almost as prominent a part of the convention as the business, and special arrangements will be made for the entertainment of the women in the party," said Mr. Cowgill.

The Victoria Realty Exchange is making arrangements for a banquet in the Empress Hotel the evening of July 18, at which both men and women will be present. A special reception for the women will be held in the Pemberton Gardens Friday afternoon, and on Saturday afternoon all the delegates will be taken for an automobile trip.

Questions that will come up before the business sessions will include the advisability of opening the membership of the association to all property owners, whether large or small; a change in the taxation system so as to lighten the tax burden on real estate, and reconstruction problems.

An interesting, if not serious, feature of the programme will be an oratorical contest for a trophy. Five minutes will be allotted to each orator. Each orator will endeavor to prove that the town in which he lives is the best.

"The man who comes from the largest town not necessarily will be the winner of the contest," said Mr. Cowgill. "Two years ago it went to a man from Astoria and last year to a man from Spokane. Twenty-five credits will go to oratorical ability, twenty-five credits to literary excellence and fifty credits to subject matter." The sessions will be known as the Victory convention.

"Unless the Pacific Northwest has some setback we will have the greatest real estate prosperity that we have had in a long time," said Mr. Cowgill. "I expect to see it last at least ten years. I do not look to see a boom, but continued healthy growth."

EXCELLENT SINGERS ON PANTAGES BILL

Splendid Programme Includes Strikingly Novel Turns; Pretty Girl Revue

Described as a "novel song fantasy" a turn presented by Cecilia Rhodes and George Crampton in the current bill at Pantages Theatre combines all the charm of originality and at the same time presents two singers of a calibre seldom heard on a vaudeville stage. Both are the possessors of excellent well-trained voices and their versatility is demonstrated by the ease in which they follow a scene from the opera "Aida" with an exposition of "jazz" singing. A striking setting adds much to the presentation of the turn. A bevy of pretty girls dance with consummate grace and the usual scarcity of clothing in the "Krazy Kats" revue which is the headliner at the theatre this week. A feature of the revue which caused much amusement was the ball game in which audience and artistes participated, the huge sphere being thrown from the stage to all parts of the house.

Faye and Jack Smith proved an exceptionally popular pair with their breezy songs and witty patter. The dancing which they added to their number aroused an Oliver Twist attitude in the audience who loudly clamored for more. Amusing dialect songs as interpreted by Clyde Hagar and Walter Goodwin convulsed the audience and both of the singing comedians, as they are aptly described, were recalled many times.

Tameo Kajiyama presented an amazing exhibition of mind concentration by his writing of difficult sentences while talking on a totally different subject to the audience. His quaint Japanese philosophy and humorous replies to questions tendered by the audience roused much laughter and made the offering an outstanding one. Helen Jackley provided a series of thrills with her sensational display as an aerial gymnast. Her backward somersaults from a high ladder on to a table were accomplished with an amazing neatness and dexterity which left the audience grasping.

The fifth episode of the serial "The Man of Might" proved an exciting introduction to a programme of all-round excellence and patrons of this popular theatre will find much to please on the current bill.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

GEORGIA HAMILTON.

Thinness and weakness are usually due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by Cyrus H. Bowes in Victoria and most all druggists under a guarantee of satisfaction or money back.

By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate quickly produces a welcome transformation in the appearance; the increase in weight frequently being astonishing.

This increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear, dull eyes become bright, and pale cheeks glow with the bloom of perfect health. Miss Georgia Hamilton, who was once thin and frail, reporting her own experience, writes: "Bitro-Phosphate has brought about a magic transformation with me. I gained 15 pounds and never before felt so well."

CAUTION.—Although bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not, owing to its remarkable flesh-growing properties, be used by anyone who does not desire to put on flesh.

Birds' Eggs Collection.—Walter F. Burton, of Rockwood, St. Charles Street, an experienced bird student and egg collector, has presented to the Provincial Museum part of his wonderful collection. There are over 100 varieties in the collection, which will hereafter be seen in the Natural History Museum at the Parliament Buildings. Mr. Burton is one of the most enthusiastic bird students in Western Canada.

☆ ☆ ☆

Propose Tennis Courts.—A proposal to establish a public tennis court at Beacon Hill was urged upon the City Council in a letter received from F. Edwards last night. The matter was referred to the Parks Committee for report.

Shine Your Furniture with Nusurface Polish, 8 oz. for 25c, at R. A. Brown & Co.'s, 1302 Douglas St.

☆ ☆ ☆

Hired Vehicles By-Law. — In order that the aldermen might have an opportunity to examine into the ordinance, the City Council last night tabled for a week the new Hired Vehicles by-law framed to fix a new schedule of charges for hired vehicle service in Victoria.

☆ ☆ ☆

Dance at Gorge Pavilion Wednesday night; good orchestra; evening ticket, 50c.

☆ ☆ ☆

Bishop Allen's subject to-night will be "The Two Resurrections," Church of Our Lord, cor. Humboldt and Blanshard Sts., 8 p.m. Admission free.

☆ ☆ ☆

The Florence Nightingale Chapter Will hold an important meeting at the new headquarters, Jones Building, on Wednesday at 2.30 p.m.

☆ ☆ ☆

Pounds of all sorts will be very gratefully received at the Portestant Orphanage Home, Thursday, June 19.

☆ ☆ ☆

Girls' Corner Club.—The usual corner club tea will be served at the club rooms, Odd Fellows' Hall, Douglas Street, on Thursday at 6.15, to which the members heartily invite girls who are strangers in the city or any who have not yet attended these meetings. Mrs. W. Marchant will give an address at 7.15.

☆ ☆ ☆

Tabled For Week.—In order that a copy of the City Solicitor's report on the question might be forwarded to the neighboring municipality, the City Council last night tabled for a week Alderman Sangster's motion that the corporation disclaim the agreement under which Oak Bay receives fire protection from the Duchess Street Hall. The city claims that the original agreement is not binding because it failed to put to the ratepayers a by-law ratifying the contract, as was planned. Other legal considerations also enter the case. The city contends that Oak Bay should increase its grant in view of the increase in the cost of upkeep during recent years.

OFFICIALLY "DEAD"; NOW GREETS FRIENDS

Capt. J. Urwin Mann Is Back in Victoria With Family

It is some satisfaction to a man who has been officially posted as dead to return and greet his friends. This is the experience of Captain (Acting-Major) J. Urwin Mann, who returned to Victoria on Sunday with his family, and is now a guest at the Empress Hotel.

The occasion of his serious wounding with shrapnel at the second battle of Ypres, and incapacity in hospital for many months, during which his legs were paralyzed, led to his absence from the front, and gave weight to the official report of his demise.

Capt. Mann was a resident here before the war. He was connected with the realty firm of Tracksell Douglas & Co. Following the outbreak of the war he left with the first section of the Gordon Highlanders, and was thus associated with the 16th Canadian Scottish Battalion, serving with it in France until seriously wounded. After some months in hospital he secured his lieutenancy in the Liverpool Scottish. Attracted by the possibilities of the tanks, he underwent special training, and qualified as an officer in the Tank Corps. He was then sent to France in charge of eight tanks.

The captain's chief work at the front has been done with the tanks, and he has been through all kinds of experiences, gruesome and gay, thrilling, and commonplace during the time he served overseas. He was for a considerable time adjutant in command of a tank spply company, whose duty it was to supply food, water, munitions and all necessities to the infantry, the moment the objective of the infantry was attained, or even to anticipate them in attack. During the drive last year his company took an active part at Cambrai.

Captain Urwin Mann stated to The Times last evening that it was understood that there were 2,500 tanks ready to cross to France when the Armistice came, and that knowledge of the tank's effectiveness had much to do with the breakdown of the German morale last summer.

Mrs. Mann, whom he married shortly after arrival in the Old Country, is a daughter of T. R. Ronald, a well-known British shipowner, who was formerly president of the Dominion Atlantic line, and had other Canadian interests.

VETERANS IN FAVOR OF LAW AND ORDER

Army and Navy Veterans Take Their Stand; Membership Is Increasing Rapidly

Members of the Army and Navy Veterans at the regular general meeting last night unanimously pledged themselves to maintain law and order in this city should the threatening strike be called. The president, Comrade Kirk, stated that at the meeting held recently of the presidents of all ex-soldier organizations, this action was decided upon and he asked for its endorsation by the organization as a whole. This was given in a most emphatic manner.

According to a statement made by the secretary last night the Veterans now have a membership of 1,349, which makes it one of the strongest ex-service organizations in this city. Every day a number of applications for membership were received, he indicated.

Secretary Young was elected as the delegate from the local organization to the Dominion Convention which is to be held in Montreal commencing on July 23. A telegram just received, stated that the convention had to be unavoidably postponed from June 24.

On the motion of Comrade Pearce it was decided to have the delegate to the ex-service committee which is meeting on Thursday afternoon, advocate the inclusion of a fair wage clause in all lumber contracts placed in British Columbia.

Comrade Cross was elected to the executive to fill the vacancy caused by the resignation of Comrade Watson, and the selecting of another member of the finance committee will be left to the president.

At the next general meeting the secretary will present the financial statement and it is hoped that all members will be in attendance.

STRAWBERRIES ARE BEGINNING TO MOVE

First Carload Shipments Leave To-morrow; Preserving Expensive

The first carload of strawberries to be shipped out of the Gordon Head district this season will leave for Ladysmith early to-morrow morning consigned to the prairies, and if at all possible, a second car will also be loaded by to-night, also for the prairies. There are 774 crates to the carload.

Retail prices for strawberries now run from 20 cents to 50 cents a box, or from $4.80 to $6.00 a crate. It has been stated that consumers need not look for a lower price than somewhere around $4.60 a crate. It is believed that berries will be selling at the lowest figure probably in another ten days.

Housewives are viewing with disappointment the possibilities of preserving this season, owing to the increased price in sugar as well as the price of strawberries. Many who had limited their fruit preserving during the war to a very scant supply had hoped that there would have been at least a slight decrease in prices. The fact that the strike is interrupting sugar shipments is also making it impossible to secure more than small supplies of sweetening material and buying in small quantities is extremely costly.

HIGH FUR PRICES

Skins Fetch Unprecedented Prices at Fur Sales in London.

During the past few weeks the London fur sales which were discontinued during the war have been resumed. With the approach of peace buyers have flocked to them from Allied and nuetral Europe, as well as from Canada and the United States. Competition has been keen, and some prices have touched record figures.

Silver fox has fetched as much as £325 a skin, blue fox has been sold for £150 a skin, fisher £70, white for £18, skunk £2 10s., and musquash 15s.

The records of the sales over the past half century show that the average price for fisher was £1 1s. a skin, for white fox 4s. 6d., and for musquash 4d.

The record prices have been paid for the skins in their raw or prepared state, and the furs will cost much more when they are converted into garments.

No Constipation NO PILES.

We think, without a doubt, that constipation is the most prevalent, and at the same time, one of the greatest troubles human nature is afflicted with, and causes more sickness than anything else.

Unless a free action of the bowels occurs at least once a day, constipation is sure to ensue, then comes the sore and uncomfortable piles, sick and billous headaches, coated tongue, obnoxious breath, sour stomach, heartburn, water brash, and many other ailments.

Milburn's Laxa-Liver Pills will regulate the flow of bile to act properly on the bowels, thus removing the constipation and its allied troubles.

Mr. Dan Doucette, Eel River Crossing, N. B., writes: "Having been troubled for years with constipation and trying everything I knew of, a friend advised me to use Milburn's Laxa-Liver Pills. I used four vials and am completely cured. I can gladly recmomend them to anyone who suffers from constipation."

Milburn's Laxa-Liver Pills have been on the market for the past 25 years, and have been used with the best results by thousands of people in that time, and we have yet to hear of a complaint as to their curative powers.

Price 25c. a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Mosquito and fly bites will not trouble you if you use Zam-Buk. This herbal balm ends the irritation, draws out the poison and prevents inflammation.

Keep it handy at your summer cottage as a "first aid" for all injuries. Druggists and Stores, 50c. box.
ZAM-BUK

WILL HOLD FALL FAIR AT DUNCAN

Plans Under Way For Event to Take Place September 25, 26 and 27

W. Waldon, Secretary of the Cowichan Agricultural Society, is visiting the city for the purpose of interviewing Hon. E. D. Barrow, Minister of Agriculture, in connection with promoting the agricultural fair to be held in Duncan September 25, 26 and 27. Entries will close on September 18.

From present indications the fair will be a big success, says Mr. Waldon. The feature of this year's event will be the increase in the goat exhibit, a great interest being displayed in this line of stock.

Mr. Waldon is endeavoring to arrange for cheap rates on the Esquimalt & Nanaimo Railway, and interviewed the railway officials on the matter to-day with encouraging results.

The dog show, which was an attractive feature of last year's exhibition, will be eliminated from this year's event, and it is probable that a dog show will be held separately later on. Owing to the lack of space and the large amount of work connected with the dog show it was decided to abolish it in connection with the agricultural exhibition.

Entries will continue to be invited from all points. Victoria especially is asked to take part in the exhibition, and Mr. Waldon is anxious that this city should show what can be done in the way of production. "There are lots of fine agricultural products right here in your city and in the surrounding districts that should be shown in competition at our fair, and now is your chance to show Cowichan what Victoria can do," said Mr. Waldon. "With the increased attention given matters pertaining to food production there is no source of information relative to such matters so valuable as an agricultural exhibition," says Mr. Waldon, and he hopes that the entire population of Vancouver Island will look upon the Duncan event as a matter of personal interest.

TO AID AGRICULTURE

A new District Supervisor of Agricultural Instruction under the Department of Education has been appointed for the Municipality of Langley, in the person of J. M. Shales, B.A., B.S.A. Mr. Shales has had a brilliant career as a student, having spent four years in Queen's University, Kingston, Ontario, and four years in the Ontario Agricultural College, where he obtained the highest standing given during the course.

In addition to the teaching of agriculture in the Langley High School, Mr. Shales will assist the teachers in the public schools of the municipality in organizing and conducting courses in elementary agriculture, including school and home gardening. This branch of the work of the Education Department has already made substantial progress. Seven District Supervisors in all are now at work in different parts of the Province.

Sounding Concluded. — Sounding operations on the site of the proposed new Johnson Street bridge have now been concluded. The dumping of filling on a lot at one end of the bridge has been proceeding for some time.

The AEOLIAN-VOCALION

"A PHONOGRAPH so highly perfected as this one is a necessity in my home and yours.

"Many of my friends at one time or another have been interested in the talking machine. But I have noted that almost without exception their interest has been inclined to wane, somewhat, after the initial enthusiasm.

"The reason was not clearly apparent to me until I heard the Aeolian-Vocalion. The wonderful full rich tone of this instrument afforded the clarifying comparison.

"When I heard the Vocalion I realized that here was inspiring, thrilling quality. Here was music that would compel attention, that would be as fresh, as full of interest at the tenth playing of the record as at the first.

"A phonograph so highly perfected as this one is a necessity in my home and yours. For it has a permanent interest and value for all."

THE AEOLIAN-VOCALION

We invite you to come in and test the perfection of Vocalion music personally. You will marvel at its unique musical capabilities—also at its moderate price. From $69 up. Cabinet models with Graduola attachment from $160 up.

SAANICH ASSESSMENT SHOWS LITTLE CHANGE

Court of Revision Completed Its Work in One Day; The Figures

The assessment on land in Saanich municipality this year, $10,861,967, and $542,390 on land in the Craigflower School district is in striking contrast to the figures which prevailed during the boom. The land value assessment is just about half that of 1914. Since that time the totals have been steadily dropping, accelerated not only by the operation of the Shallcross amendment, but by the reversion to acreage of many sub-divisions which were placed on the market during the realty boom.

Only about $1,400 to $1,500 assessment was varied by the work of the Court of Revision, which completed its work yesterday. There were eighteen appeals, and about six were proceeded with. Those before the court were with regard to acreage assessment on the Gorge, and some appeals for special treatment on acreage on account of the amount of rock on the property.

The assessment on improvements is now about $4,500,000, which of course has shown little alteration in the past five years.

The council will be in a position at the next meeting to strike the tax rate for the municipality.

Garden Party at Metchosin. — A number of attractive features have been arranged in connection with the garden party to be held at the home of Capt. and Mrs. H. R. Hammond at Metchosin to-morrow afternoon. The proceeds will be devoted to the funds of St. Mary's Church, Metchosin.

☆ ☆ ☆

Plaintiff Wins Case—In the Supreme Court trial of Bhadar Singh vs. Sohon Singh, Chief Justice Hunter rendered judgment in favor of the plaintiff for $400 and costs. The action was brought for damages for malicious prosecution in connection with the payment of a promissory note.

☆ ☆ ☆

Judgment Thursday.—The Court of Appeal, which has reserved its judgment in respect of the matters brought before it in connection with the Findlay case, announces that it will hand down its decision on Thursday morning.

☆ ☆ ☆

Judgment For Plaintiff. — Judge Lampman rendered judgment in favor of the plaintiff for $200 and costs in the case of Jameson vs. Reid tried before him in the County Court. The action was for damages for the removal of some trees from plaintiff's land at Sooke.

☆ ☆ ☆

May Settle Dispute—In the divorce action of Lenzie vs. Lenzie, in which both parties claim a decree, Chief Justice Hunter in the Supreme Court, to-day ordered an adjournment to see if the parties could come to some understanding over the question of ali-

SPORTS of VICTORIA THE NORTHWEST AND THE WORLD

BAKER AND SNEDDON MAY BE MAIN BOUT

Effort to Match Two Old Rivals for V. I. A. A. Boxing Tournament

Swimming as a training stunt for the V.I.A.A. boxers is being used to coudition the Club's representatives at the tournament to be staged June 21 at the Crystal Theatre. If enough competition is forthcoming for the V.I.A.A. men the club anticipates a complete card of interesting bouts, everyone of which will be a real scrap worth watching. The Island club recently has again secured the services of several men back from France who were well known in the ring before they left the city, and most of the boys back from the other side of the duck pond have had lots of opportunity of soaking in ring knowledge since they went away. The Army apparently was a home for the boxers, for to a man the pugilistically inclined soldiers appeared in one or other of the many boxing tournaments promoted in France and England. Most of them have returned in shape to step right into the ring and show the polish they have acquired at the noble art since they ran up against the cosmopolitan competition that the army offers.

Sneddon and Baker.

The bout between Billy Sneddon and Roy Baker seems assured. The two lads branched out as fighters in Victoria about the same time and were matched several times in Victoria before they went overseas. Although they left Victoria together they got separated overseas, and were with different units in the firing line. Recently in a letter to a friend in Victoria Baker mentioned that he and Sneddon had both been doing a lot of boxing over there but though they would both like to meet each other in the ring for old times sake they had never been able to connect. He wrote from Germany stating he would like a crack at his old rival and Roy looks like getting his hopes realized. He showed at the Foundation tournament that he has lost none of his ring cunning. He is not afraid to take punishment and has a punch that looks like a knock out. He is quick and clean and although Sneddon has not made a public appearance since he came home from all accounts he is more than able to take care of himself.

The newsboys are training hard. When Davies introduced swimming as a training stunt he was surprised to learn that there was not one of the lads who appear at the tournaments was able to swim. He put them in a lifebelt and found them willing novices. Their enthusiasm for swimming, he states, is liable to make them turn their attention from the ring training in favor of putting all their time in the water.

LACROSSE

Additional interest is promised in the intermediate lacrosse league by the probable entry of another team. The Nationals having dropped out of the race, only Sidney and Victoria West were left to battle for intermediate honors. The third entry includes several players, who were included in the line-up of the Nationals.

At a meeting which will be held at Bissell's, Douglas Street, to-night at 8.30, it is anticipated that the entry for the new club will be received and a schedule arranged. George Straith has promised to help boost the new club.

The Foundation players will practice at Royal Athletic Park to-night, players being asked to be on hand at 6.30.

LATEST RACING RESULTS

Latonia, Ky., June 16.—Results:

First race, claiming, $1,200, three-year-olds and up, six furlongs—Bagpipe won; Bon Stelle, second; Napthalius, third. Time, 1.14 1-5.

Second race, purse $1,200, maiden two-year-olds, four and a half furlongs—By Golly won; Ace of Trumps, second; Captain Mac, third. Time, .54.

Third hace, Hyde Park, purse $1,500, fillies, three-year-olds, six furlongs—Madras Gingham won; Kiku, second; Legotal, third. Time, 1.14 1-5.

Fourth race, Norwood, purse $1,700, three-year- olds and up, mile and a sixteenth—Dodge won; Vulcanite, second; Bribed Voter, third. Time, 1.45 4-5.

Fifth race, purse $1,200, three-year-olds, four and a half furlongs—Springvale won; Sterling, second; Atta Boy, third. Time, .54 3-5.

Sixth race, Queen City Club Handicap, purse $2,200, three-year-olds and up, one mile—Buford won; Wargod, second; Lillian Saw, third. Time, 1.39 3-5.

Seventh race, claiming, purse $1,300, three-year-olds and up, mile and a sixteenth—Deckmate won; Emanale, second; Obulus, third. Time, 1.47 3-5.

RATNER AND BASHAM DRAW

London, June 17.—The twenty-round boxing contest at the National Sporting Club last night between Augie Ratner and Johnny Basham, ended in a draw.

COLLIERIES PLAYING IMPROVED BASEBALL

Upheld Manager's Claims When They Beat Straith-Two Jacks

Playing better baseball than they have done at any stage in the city amateur league, the Canadian Collieries outclassed Straith-Two Jacks to the tune of seven to four last night, and as Manager McFarlane puts it, "started on the climb to the top of the league." Townsley again working as catcher, proved himself a great support to the combination, and the Canadian Collieries are now able to field a team that will be counting in the race until the last game is played. With Yarrows probably dropping out of the league there should be a hard three-cornered fight until the curtain rings down on the amateur schedule.

A Pitchers' Battle.

Last night's game was purely a pitchers' battle, and Harry Copas on the mound for the Collieries and George Straith pitching for the Esteejays shared the honors evenly. Seven hits were made off both pitchers. Each struck out five men and the only difference in their tally was that Straith walked two and Copas walked only one. Copas made a fine saving by fielding his position in a remarkable manner, having six assists on batted balls. The absence of George Burnes and Sid Elmer on the Straith-Two Jacks line-up was felt considerably by the losing team.

Next Game Wednesday.

The next game is set for Wednesday at 6.45, the Collieries clashing with the Foundation nine. Flushed with the success of his victory against the Two Jacks combination, the manager of the miners' nine is hopeful that a winning streak for the team has set in. He is leaving nothing to chance for Wednesday's game and not even a new car would give him as much satisfaction as success over the shipbuilders.

League Meeting.

A league meeting has been called for to-night at the Two Jacks at eight o'clock. The executive are asking for a full representation, as there are a lot of important matters to be discussed.

BIG BILLIARD BREAKS

Many people have been wondering lately why it is we never hear nowadays of such sensational scores as were made in the exhibition billiard matches of years ago.

The reason is, of course, that certain strokes are now barred, or partially barred.

It is not allowed, for example, to pot the red more than three times running. Before this rule was made Peall, upon one occasion, played the stroke 633 times in succession.

Another partially barred stroke is the "anchor cannon." The record billiard score was achieved by Dawson with this stroke. He made over 21,000 successive cannons, his total for the break being 42,746.—Tit-Bits.

REMARKABLE ESCAPE.

Spillikins—I see young Jones's life was saved by the bullet hitting a button. Rather a remarkable escape for a married man!

Mrs. S.—But why for a married man?

Spillikins—Because the button must have been on, my dear!—Passing Show, London.

YOUNG VICTORIA GIRL IS CREDITED WITH WORLD RECORD

Student at St. Margaret's Sets New Mark For Hundred Yards

According to the time taken at St. Margaret's School sports Saturday, a world's record for the 100 yards was made by a fourteen-year-old girl, Ada Algar, whose time for the distance is given as nine and one-half seconds. The young lady also was second in the long jump and the obstacle race and first in a couple of noveity events, being second for the junior championship of the school. The sports were held on the tennis court in the school grounds.

That the young student is a speedy runner is shown by her performance in other events, but if the time has been correctly taken, and the course perfectly measured she has shaved a tenth of a second off the previous world's record for the 100 yards, Kelly and Harold Drew, the negro sprinter having released the tape at nine and three-fifths seconds.

The time excels anything previously recorded in Victoria, the records showing that the best time made in this city was made by Hal Beasley, a Canadian representative at Stockholm. In the Pacifice Coast Invitational meet in 1913 Beasley, after four weeks of hard training, covered the distance in nine and four-fifths seconds. He was up against the stars of the Olympic Club of San Francisco, the Seattle Athletic Club, the Multnomah Club of Portland, the Oregon Agricultural College, and the track talent of British Columbia.

FIVE HOCKEY RINKS ON MURMANSK COAST

Canadians In Bolshevikland Well Provided With Sports Equipment

The weather is not nearly so cold in Northern Russia as in Northern Ontario, according to Capt. Norman Rawson, the Canadian Y. M. C. A. representative with the Murmansk expedition.

"The lowest temperature we have had," he writes, "is 31 degrees (Fahrenheit) below zero. There is about 19 inches of snow, not more. Splendid ski-ing and skating."

Capt. Rawson's reference to the ideal winter sports conditions draws attention to the arrangements which the Canadian Y. M. C. A. made to contribute to this phase of the soldiers' existence in the Northland. In a shipment to him the Quartermaster's Department of the Y. M. C. A. despatched from headquarters, London, 50 defence, 126 forward and 24 goal hockey sticks; 100 pairs of skates and boots, 50 hockey pucks, 50 pairs of shin pads and other goods. With these five cases went 36 Pierrot costumes, 8 sets of grease paints, a deccaphone and 100 records and a large quantity of bound music, so that some facilities have been provided for the pastime occupation of the crusaders in Bolshevikland.

"We have five hockey rinks, nine football teams, three ski-jumps and a toboggan slide in the 237th Brigade," writes Captain Rawson on the subject of athletics. "Four officers are giving all their time to sports in the brigade. In the 236th Brigade they have one rink but six football teams and several ski-slides. I have succeeded in getting a half-holiday for the boys to devote to sports each week."

In addition to their own amateur theatricals, an Italian Band and a Yorkshire concert party and orchestra have been on tour.

Accompanying the Italian band on their tour, Capt. Rawson took with him 90,000 cigarettes, 200 library books, writing paper, socks, fruit and sundries.

In spite of entertainment, however, the Canadians in Russia are scarcely happy. They have too little to do, says Capt. Rawson, and this is hardly the thing for men of Canadian temperment and training.

Since writing his report, Capt. Rawson has accompanied Major Muir of the R. A. M. C. on an extended trip into a region of which very little is known. They were to take thirty dog teams.

HOARDED GOLD

There must still be a vast amount of uninvested money in the country.

In a Yorkshire village there is a fisherman who is known to have £1,000 in notes in his £6-a-year cottage. He wears clothes which cost about £2 before the war, and owns a fishing boat worth £200 or £300.

In the same village a short time ago a fisherman bought his cottage, and when the solicitor called for a deposit he counted out £300 in gold, the full purchase price.

A woman in a Yorkshire country town one morning walked into a solicitor's office and produced a handbag containing 2,000 half-sovereigns, which she had collected in thirty years. After asking advice on investing the money she stated that at night she took the handbag up to her bedroom. When she travelled she took the handbag with her, and on one occasion left it on the rack in the train. She remembered her treasure before she left the station and recovered it.

Another instance of uninvested money is that of a travelling basket and rug vendor who told a banker that he always carried £1,000 with him. He was advised to put his money into the bank, and ultimately did so. But he became uneasy, and soon drew out £500, which he deposited in another bank, remarking he did not think it wise to have all his eggs in one basket.—Tit-Bits.

THINKS IT WILL BE A NO DECISION BOUT

Packey McFarland Forecasts Tex Rickard Will Stage Exhibition

Packy McFarland thinks Jess Willard will retain his title in that little affair over at Toledo on July 4. Packy declares there is not much chance of the big fellow losing his crown when he meets the challenger.

Packy also thinks Tex Rickard will referee. He predicts that at the last minute it will be announced the affair will be a no-decision bout and that there will be either another match or Jess will retire and turn his title over to the challenger.

Packey spoke right out and said he did not think an awful lot of the title match.

"Jess Willard has just finished a motion picture out west. That picture, so far as I know, has not been released. If Willard loses his crown the picture is not going to be worth much. If he retains the title, the movie should go big.

"They made the bout over the twelve-round route because Willard cannot possibly be beaten in that time. He can stay from Dempsey that long, and all he has to do is cover up his midriff and he won't take any punishment.

"I have an idea that in a week or so they'll anpounce from Toledo that owing to the opposition of the ministers, and to show opponents that it is not a pugilistic contest, but an exhibition of boxing, no decision will be given. That will protect Willard's title.

"Another thing. They haven't agreed on a referee. The bout is only three weeks away. There are lots of good men for the job. Matt Hinkle, Ed Smith, and scores of other capable men are available. Why don't they pick one of them?

"I'd bet the Masonic temple against a doughnut that Tex Rickard will be the third man in the ring. They'll say they cannot agree on a referee, and will compromise on Rickard, just as they did at the Johnson-Jeffries affair. And Rickard knows as much about refereeing a prize fight as I do about editing a newspaper.

Smoke "Player's Navy Cut" Cigarettes wrapped In Tin Foil

LEONARD UNABLE TO STOP DUNDEE IN SIX

Philadelphia, June 16.—Benny Leonard, lightweight champion, and Johnny Dundee, of New York, fought six hard rounds to a draw at the National League baseball park here to-night. Dundee carried the light to the champion in every round. Leonard's punches wede cleaner and carried more weight, but he was unable to check Dundee's rushes.

CLOSE GOLF IN THE WESTERN TITLE EVENTS

Clarence Wolf, of St. Louis Club, Leading a Field of 150 Players

St. Louis, Mo., June 16.—Excellent golf marked the 18-hole elimination round of the Western Amateur Golf championship at Sunset Hill Club today, Clarence Wolf, of Algonquin Club, St. Louis, leading a field of 150 by a score of 73, one over par. All but the best 71 were dropped at the end of today's play, eleven men tieing at 89 for the last four places in the first 64.

Donald Edwards, of Chicago, and R. E. Bockenkamp, of St. Louis, runner-up last week in the trans-Mississippi tournament, tied for second place with 75. James E. Nugent, Kansas City; C. C. Waldo, Detroit; Harry Legg, Minneapolis, and Dudley Mudge, St. Paul, were next with 76.

Those who had 89 or better to-day will play 18 holes to-morrow morning and 32 who have the lowest scores for 36 holes will play the first match round of 18 holes in the aftrenoon.

RESULTS IN GOLF NORTHWEST TOURNEY

Two Young Golfers From Seattle Lead Entire Field Amateurs

Spokane, June 17.—Bon Stein and Clark Spiers, a couple of young golfers from the Seattle municipal links, led the entire field of amateurs in the play for the open championship of the Northwest, which begun this morning at the Country Club. A professional, Bob Lager, of California, is the low man with a mark of 148.

Scores of professionals and amateurs, who lead for the day's play follow:

Professionals—Bob Lager, 7, 77, 148; George Turnbull, 75, 75, 150; Harold Sampson, 77, 73, 150; Joe Novak, 78, 73, 151; E. Martin, 79, 73, 152; A. Duthie, 79, 74, 153.

Amateurs—B. Stein, Seattle, 73, 78, 151; C. Spiers, Seattle, 77, 74, 151; H. Schmidt, Aberdeen, 76, 76, 152; R. Wilhelm, Portland, 81, 72, 153; E. J. Barker, Butte, 78, 77, 155; Lee, Steil, Seattle, 79, 76, 155; H. A. Fleager, Seattle, 76, 79, 156; E. H. Hughes, Spokane, 82, 77, 159.

Mrs. B. E. Curran, Tacoma, winner of the Pacific Northwest Golf Association tournament in 1916 was low medalist in the eighteen-hole qualifying round of the women's P. N. G. A. tournament played this afternoon. Mrs. Curran turned in a card of 97.

Miss Maude B. Agley, of Los Angeles, was second with 98. Qualifying scores in the tournament were exceptionally high. Practically all the fair sex golfers were troubled with the speed of the greens.

Among other scores in the qualifying rounds were:

Mrs. D. P. Thomas, Seattle, 101; Miss Mary Turner, Butte, 191; Mrs. G. W. Lane, Portland, 104; Mrs. Dick Kilroy, Butte, 110; Mrs. Ralph Dillingham, Spokane, 101; Mrs. John Twohy, Spokane, 110; Mrs. Carl Huiskamp, Seattle, 112; Katherine Clark, Spokane, 119; and Mrs. Fred Baldkin, Spokane, 119.

COUNCIL CHANGES VIEW AND REJECTS PLAYGROUND PLAN

Aldermen Who Favored Scheme Previously Experience Change of Heart

DISREGARD REPORT OF STREETS COMMITTEE

Changing its decision unexpectedly, and rejecting by a tie vote the report of the Streets Committee, the City Council last night vetoed the plan to supervise Victoria playgrounds, as proposed by the recently formed Recreation Commission. Though seven Aldermen signed the Street Committee's report referring the question to the Council with a favorable recommendation, only five members of that body upheld the scheme when it was put to the final vote. Mayor Porter, who had been elected honorary chairman of the Commission and promised support of its proposals, intimated that he did not think the city was justified in spending the $1,550 asked and, when the vote was recorded, he joined with those who opposed the plan.

The report of the Streets Committee referring the plan to the Council with a favorable recommendation was signed by Aldermen Sangster, Johns, Andros, Fullerton, Harvey, Patrick and Cameron. Of this number Aldermen Sangster, Andros and Cameron voted nay" when the final ballot was taken. The Council was evenly divided in the absence of Alderman Sargent, those favoring, Mayor Porter and Alderman Sangster, Cameron, Dinsdale and Andros opposed it.

Mayor Urges Economy.

When the Streets Committee, which is composed of all the aldermen referred the playground supervision plan to the Council, Mayor Porter urged his colleagues to remember in their deliberations that the city's financial state was such that it was in many cases impossible to build roads to people's houses.

These remarks were echoed by Alderman Cameron, who observed that the city had gone to more expense than was first anticipated in making improvements to the Songhees Park. In view of the large amount spent by the school authorities on recreation, the alderman thought that the playground supervision plan might well stand over.

"Well, the Park Superintendent tells me that the apparatus in the parks is not in very satisfactory state," observed the Mayor, "and some $250 worth of equipment installed some years ago has disappeared."

"There is no question but that a large number of people want the games supervised," declared Alderman Patrick. "The School Board has refused to do the work and it is up to us to approve the scheme or leave the games without supervision. I must point out to you also that in the delegation which waited upon us, practically every society and organization in the city was represented."

"At least we ought to do something," added Alderman Harvey. "If the Council is not prepared to spend $1,550 I would suggest the expenditure of $1,000 as a beginning, to be supplemented later on. I move that as an amendment."

"Why the Dissension?"

"The plan was recommended by the Streets Committee which is composed of the whole Council," Alderman Clark reminded the rest of the Council. "Why is there so much dissension and argument now? Our children are our greatest asset, and we must keep them in good health. We ought to try out the plan for one year at least. The sum involved is not a very great amount anyway."

"We have not $1,550 to waste—or rather to spend," objected Alderman Andros. "When we were boys we did not need anybody to help us play. We have plenty of beaches. Why can't the children bathe and have a good time as we did? They won't go to places where they are overridden by men who are paid fat salaries. When we were boys we didn't want anybody to watch us swim. It will only be the molly-coddles who will play under the direction of some old woman, anyway. The boys and girls may meet trouble. They will have to face it some time, anyway."

Boys and Boys.

"There are boys and boys," replied Alderman Patrick. "And we must look after them all. The boys and girls who are old enough to play their games won't need supervision, but the smaller ones do. I note that Alderman Andros did not object to the voting of some $12,000 for the maintenance of the parks."

Trying to Dodge It.

It was at this juncture that Alderman Johns pointed out to the Council its change of heart. "When the delegation came before the Streets Committee," he remarked, "you were all unanimous in referring the plan to the Council with a 'favorable recommendation.' Now you are hashing around and trying to get out of it. Personally I hope that this will only be the beginning of the superpision plan. The Council ought to put aside a certain sum of money for the purpose."

Alderman Fullerton told the Council that the maintenance of two supervisors at the Central and Beacon Hill Parks should cost only $600 for three months in the summer. Why should the appropriation be larger, he asked?

"Yes, and we don't appoint the supervisors," added Alderman Andros. "These supervisors are nice fellows, all of them, yes, beautiful!"

The motion favoring the grant in aid of playground supervision was then put and lost on the tie.

MADE BY SCOTT & BOWNE MAKERS OF SCOTT'S EMULSION

CITY TO HAVE NO REPRESENTATIVE

At Meeting of Union of Canadian Municipalities Convention

Victoria will not be represented at the annual convention of the Union of Canadian Municipalities to be held in Kingston in the early part of August. The suggestion of the Legislative Committee that the Mayor name one alderman to represent the corporation at the meeting was turned down by the City Council last night on the ground that the expense involved would be too heavy.

Favoring the sending of a delegate, Alderman Johns remarked that the present was a time of reconstruction when people were getting together to organize for various purposes. It was the duty of Victoria, he thought, to be in the lime-light as much as possible, and to keep in touch with the work and development of other municipalities.

"We should send a delegate as a matter of courtesy if for no other reason, seeing that the Union held its convention here last year," urged Alderman Patrick. "Three hundred dollars will cover the expenses, and it is trivial."

"Three hundred is a considerable item in our present financial state," replied Alderman Andros. "We sent two delegates to Penticton, and it cost us quite a bit. Nothing very much came of it. The delegates had a good time—a very good time. It would cost about $800 to send a delegate to the East."

Alderman Patrick disputed the Alderman's statement with regard to the cost of representation in Kingston.

"Well, it will cost more than $300 if I go," replied Alderman Andros.

"I don't imagine you would go, as you are against the proposal," Alderman Patrick answered.

When the motion to send a delegate to the convention was put to the Council, only Alderman Patrick and Alderman Johns favored the proposal. "It's hopelessly lost," observed the Mayor.

MUNICIPAL COLD STORAGE WANTED

Consumers' League Objects to Food Waste and High Prices; Favor Co-operation

That a Municipal Cold Storage plant should be established in Victoria, and that a deputation of citizens should wait on the City Council at 2.30 o'clock Friday afternoon for the purpose of securing action was the unanimous opinion of the James Bay branch of the Victoria Consumers' League, which met in the Connaught Seamen's Institute last night. The meeting was attended by representatives from other parts of the city.

That a considerable reduction in the cost of living would accrue to the consumers by the establishment of such a storage plant was amply emphasized in some of the stories told at the meeting.

For instance, one speaker told of a shipment of one ton of prime beef brought to Victoria, Saturday on the tug Beryl, Captain Deakin, from a Port Renfrew settler. There were three carcasses of animals two years old, the total weight being something over 2,000 pounds. The best price that could be obtained from a local butcher for this meat was ten cents a pound and it was sold to the consumers at thirty-two cents, so it was stated.

Another speaker informed the meeting that a boat load of 2,000 pounds of cod and 2,000 pounds of halibut which the consumers could have had at six to seventeen cents respectively per pound had to be sent to Vancouver, simply because there were no facilities in Victoria whereby these kinds of perishables could be distributed as wanted to the consumer. The League also found it impossible to accept a proposition to take five tons of strawberries, because there were no such facilities for handling.

The question of food waste also came in for some severe criticism. A letter was read from Mayor Porter, in which was enclosed a copy of the report from Sanitary Inspector Lancaster relating to the dumping into the sea of half a ton of prunes. The League was of the opinion that there was no occasion for such waste, as it considered the prunes should have been sold at a lower price. They noted the Mayor's statement that the matter had been referred to the City Prosecutor.

Following this remark another speaker requested that a letter be written to the Mayor asking for an investigation into an alleged dumping of a quantity of ham and bacon last Wednesday, and of 1,000 pounds of fish and meat last Friday. He said he understood this had been going on from week to week.

The meeting thereupon went on record to ask for a municipal cold storage.

Mr. Stokes, of the Civil Service, outlined to the meeting the scheme of the United Service Co-operative Association. C. E. Whitney Griffiths, head of the Farmers' Co-operative Association, was unable to be present at the meeting but another speaker explained the scheme in his stead. The League was of the opinion that the organization which brought the consumer in closest touch with the producer and had the greatest tendency to lessen food prices would be the one to which they would become allied, but lacking certain information which several of the members desired, it was decided to wait until next Monday night's meeting to hear further details of co-operative schemes.

Mrs. Grace Johnston, secretary of the Women's Independent Political Association, extended an invitation on behalf of that organization to the Consumers' League to attend a meeting in the club rooms in the Campbell Building on Friday evening, commencing at 8 o'clock.

Smoke "Player's Navy Cut" Cigarettes wrapped In Tin Foil

COUNCIL FROWNS UPON CHILDREN'S VEHICLES

Will Prohibit "Skidmobiles" and Other Instruments of Movement From Streets

"We must not take every little pleasure out of life," pleaded Alderman Dinsdale at a meeting of the City Council last night, when the proposed prohibition of roller skating on the streets was under discussion. In spite of the Alderman's contention, however, a report of the Legislative Committee on the question was referred back with a request that the scope of the prohibition be extended to include carts, "speeders" and other vehicles of childish movement.

The Legislative Committee's report recommended that a by-law be prepared to prohibit "children or other persons roller skating on the streets between the curbs, but allowing the children to use the sidewalks."

"Carts and skidmobiles and such things are far worse than roller skates," declared Alderman Andros, "A child has less control on a skidmobile than he has on roller skates, and is a danger to himself and to motorists. We need a more comprehensive by-law to include these things."

Alderman Patrick, Chairman of the Legislative Committee, defended the report and reminded Alderman Andros that the time for advice had been when the proposal was first under discussion. "It would be a mighty hard proposition to eliminate these things on all streets and harder still to prohibit it on just certain thoroughfares," he argued.

"Skating and speeding should only be prohibited in the centre of the city," contended Alderman Dinsdale. "On the sidewalks the children's skates wear out in no time. It's going too far. We must not take every little pleasure out of life!"

The question was then referred back to the Legislative Committee with the suggestion that it should include in any recommendations concerning children's sports, carts, "speeders" and other similar vehicles.

COUNCIL SUSPECTS PEOPLE FALL INTO OIL INTENTIONALLY

That Appears to Be Only Explanation For Damage Claims

That people are falling on oiled streets intentionally with a view to claiming damages from the city, was the idea advanced at a meeting of the City Council last night, when a number of such claims were under consideration.

For several weeks past, in fact, ever since the oil was laid on the streets, the Council has been receiving complaints from different people who state that they have slipped and fallen on the slippery surface of oiled thoroughfares. As their clothes have been ruined in the process they claim that the city should make good the cost.

"Oh, its getting to be a joke, this oil is," complained Alderman Clark. "It is commonly said in and about Victoria that people fall on the streets, and immediately get a suit of clothes for their trouble."

"There's far too much oil put on the streets," agreed the Mayor.

"Yes, I feel very sorry for the people who have fallen into it," added Alderman Johns.

"I should feel very glad if they are all going to get suits of clothes," replied Alderman Andros.

"The cart with the sand to spread on the oil comes along almost immediately after the oil container," remarked Alderman Fullerton, "and the people who get in between the two and fall on the uncovered oil do it on purpose. That's my belief. There must be a change."

The Council was then told of a delivery boy working for Gordon Drysdale, Ltd., whose bicycle skidded on the oil recently laid on Fowl Bay Road, precipitating him upon the street surface. The oil, it was claimed, had penetrated the boy's coat and saturated the delivery book carried in an inside pocket, while the wheel was damaged in the accident.

"A motor party went to the rescue of the boy," the Mayor informed his colleagues. "The car refused to budge in the oil, and finally they had to get some gravel from the side of the road to keep the wheels from skidding. They had an awful time."

His Worship also reported on the case of N. R. Davies, who claims compensation for damages he received when his bicycle skidded on the oil laid at the corner of Bay Street and Fernwood Road. Mr. Davies visited the Mayor and displayed the damaged clothing. His Worship became convinced that the city was morally responsible for the damage. Mr. Davies, he thought, should be paid $40 in settlement for the claim. The Council, however, decided to hear from City Engineer Preston regarding the method of laying oil before taking any further action. When the question is debated again the aldermen will consider the complaint of Robert Murray, who states that he got into a "very dirty mess," when he slipped and fell while crossing Fernwood Road.

The Council also instructed the Engineer to report on the case of Harry H. Hollins, who claims payment of $25 for the damages his automobile received recently when it slipped into a excavation at the narrow part of Fort Street, near St. Charles Street.

ENDORSES VIEW OF VANCOUVER'S LEAGUE

Loyalty League Here Is Glad to Hear Dr. Proctor's Opinion

Victoria's Loyalty League has endorsed the following statement of the new president of the Vancouver Citizens' League, Dr. A. P. Proctor. In doing so it desires to state that it is acting in complete co-operation with the Vancouver body with corresponding objects.

"This is not an organization of employers or strikebreakers, neither is it an organization to form an alliance with either disputant in the industrial warfare now being waged throughout Canada," declared Dr. Procter, the newly-elected chairman of the league. "I do not know what are the aims and objects of the organization in Winnipeg having a somewhat similar name, but I can assure you that the temper of the men allied in this league is not antagonistic to labor, organized or unorganized. Our purpose is to assure ourselves as free citizens of this democracy that the public services for which we have paid our taxes are rendered to us by the city government, which we elected for that purpose.

"In the dispute between certain workers and their employers in Winnipeg most of the citizens of Vancouver are not concerned. Some few workers here, however, have intimated that they are interested, and to show their interest they have withdrawn their services from the big co-operative organization that this city really is. With their right to do so their fellow-citizens for the most part do not quarrel. Such withdrawal if persisted in for any length of time brings its own penalties as they automatically cut themselves off from all those benefits of social and civic co-operation for which they do not pay.

Will Not Take Sides.

"It has become apparent, however, through experience in Winnipeg and to a lesser degree here that the loss to the city of the services of several thousand workers imposes inconveniences and hardships on third parties to the industrial dispute. Possibly the object of the strike is that very thing, in the hope that the innocent victims of such distress may appeal to or bring pressure to bear upon the direct disputants and thus assist the original strikers to obtain what they demand. The citizens of Vancouver are not prepared as a whole to take sides in the quarrel."

They should, however, he said, as free men, decline to permit such a situation to develop as will cause their women and children and themselves to be deprived of necessities of life—food, drink, sanitary services and the like. They have seen such deprivation imposed on the people in Winnipeg by members of the same organizations as are on strike in Vancouver; consequently the citizens of Vancouver have organized to guarantee continuance of the vital functions of civil life.

"The league has only one object—to sustain civic government. They intend to sustain it on the basis which the majority of the people have by their votes demonstrated they wish to have it, and they intend to sustain it for the purposes for which it was created. Civic government exists to maintain law and order, to operate certain utilities essential to the well-being of the community, and to remove causes of common suffering, inconvenience and loss.

Forced to Organize.

"At such a time as this, when lawlessness and disorder have been precipitated in another city over this same dispute and when public servants are reported to have been assaulted in the performance of duties which the people's representatives authorized and instructed them to perform, society is thrown back upon basic principles and citizens are forced to marshal the physical strength upon which government rests and place it at the disposal of those whom they have entrusted with power.

"That is what this league intends to do. The mayor and city officials may rest assured that they will be supported to the limit in continuing normal conditions in this city. We do not believe that any such situation as exists in Winnipeg will be created here, but we are prepared and are more completely preparing to meet any emergency. Possibly if the citizens of Winnipeg had been so prepared, much trouble and misery would have been prevented.

"Knowing the objects of this league, the citizens of Vancouver will require no further invitation to come and enroll themselves upon its membership by signing the card pledging sympathy and support in every way possible.

"Let me add, although I do not believe it is necessary, the league is usurping no government powers. It is as stated before merely marshalling the strength upon which government rests and placing it at the disposal of the duly constituted authorities."

MUSICAL GOSSIP.

When you can sing a part in a chorus, you get more out of that work than you will if you merely sit in the audience as a listener.

The pioneer business of its kind in Canada.

Polarine

FRICTION REDUCING MOTOR OIL

"Makes a good car better"

Imperial tank ships and tank trains conveying Imperial products from refinery to distributing stations.

Big Links in Distribution

Our own tank trains and tank ships are a big factor in insuring you a supply of Imperial Polarine at all times, everywhere.

Imperial Polarine is a steadily demanded lubricant. It kills undermining friction in bearings, gears and cylinders. Won't break down, separate or gum under high heat or hard pressure. Keeps compression tight and power from escaping. Expels carbon with the exhaust.

Ask the Imperial Oil Man when to use Imperial Polarine when Imperial Polarine Heavy or Imperial Polarine A. In one-half, one and four-gallon sealed cans, twelve and a half gallon kegs, half-barrels and barrels.

Sold by good dealers everywhere.

IMPERIAL OIL LIMITED

APPROPRIATE NAMES FOR CANADA'S SHIPS

Cognomens Have Been Assigned to Thirty-three Out of Forty-five Ships Ordered

Of the forty-five steel steamships ordered by the Dominion Government from shipbuilders in this country under the new Canadian merchant marine programme, thirty-three ships have already been named. The four 8,100-tonners to be built by John Coughlan & Sons, Vancouver, will be christened Canadian Importer, Canadian Exporter, Canadian Inventor and Canadian Prospector. Wallace Shipyards, Ltd., North Vancouver, have been awarded four ships, two of 4,300 tons and two of 5,100 tons. The Canadian Volunteer and Canadian Trooper have already been launched. The two 5,100-ton vessels will be known as the Canadian Aviator and Canadian Scout.

The two 8,100-ton ships to be built in Victoria by the Harbor Marine Company, Ltd., are scheduled for delivery January 31, 1920 and November 30, 1920, respectively, but the names for these vessels have yet to be selected.

The Canadian Voyageur and Canadian Pioneer, built by the Canadian Vickers, Ltd., Montreal, were the first two ships of the Canadian fleet to be put into commission. Six other ships of 8,100 tons each will be built by Canadian Vickers, Ltd., and will be named Canadian Navigator, Canadian Ranger, Canadian Seigneur, Canadian Miller, Canadian Spinner and Canadian Planter.

The Collingwood Shipbuilding Co., of Collingwood Ont., has launched the 3,750-ton steamer Canadian Warrior, and has a contract for three more vessels of the same tonnage to be known as the Canadian Recruit, Canadian Signaller and Canadian Gunner.

The Collingwood Shipbuilding Co., Kingston, Ont., is building one steamer of 3,750 tons, which will be named Canadian Beaver. Four ships of 5,100 tons each, building at the Three Rivers plant of the Tidewater Shipbuilders, Ltd., will be christened Canadian Settler, Canadian Ranger, Canadian Fisher and Canadian Forester.

Other contracts are as follows:

Port Arthur Shipbuilding Co., Port Arthur, Ont., four ships 3,400 tons, Canadian Trader, Canadian Adventurer, Canadian Sailor, Canadian Cadet.

Davie Shipbuilding & Repairing Co., Lauzon, Que., two ships 5,100 tons, Canadian Trapper and Canadian Hunter.

Halifax Shipyards, Ltd., Halifax, N. S., two ships 8,100 tons, Canadian Mariner and Canadian Explorer.

The Port Arthur Shipbuilding Co. also holds a contract for two other vessels of 4,300 tons.

The Halifax Shipyards, Ltd., holds a contract for two steamships of 10,500 tons.

Of the other un-named ships, the Nova Scotia Steel & Coal Co., New Glasgow, N. S., has a contract for two 2,800-ton steamers; the Prince Rupert Dry Dock and Engineering Co., Prince Rupert, B. C., two 8,100-ton steamers, and the British American Shipbuilding Co., Welland, Ont., two 4,350-ton ships.

When washing black stockings add a teaspoonful of vinegar to the rinsing water. This will keep them a good colour and prevent them from turning a rusty black.

THE 1919 TAX SALE

Is Adjourned to Thursday, June 19, 1919, at 10 a.m. in the Council Chambers, City Hall.

Intending buyers will have the opportunity of requesting any of the lots listed to be put up.

The total amount due, which is all arrears to end of 1918 with interest and costs, must be bid for a start, and more than one bid is **not** necessary to make a sale.

The owner has one year to redeem with interest at 8% a year.

In case of a bid above the total amount due the difference is not put up at time of sale, but must be paid not later than one month after the period of redemption expires.

The Statute provides for the issue of an indefeasible title without further expense.

This is the final sale.

EDWIN C. SMITH,
Treasurer and Collector.

Ottawa Sponsored by Wife Of Veteran Shipbuilder

Mrs. W. J. Stephens Central Figure at Foundation Launching Ceremony Last Night; Ottawa, Eighth Ship of Contract, Put Afloat in Gathering Dusk

Another particularly successful launching was staged at the Foundation yards last night when the good ship Ottawa was consigned to Neptune's domain in the presence of one of the largest crowds that has yet turned out for a twilight affair.

The Ottawa marks the eighth ship to be launched by the Foundation Company here to fly the tricolor of France, the shipbuilding corporation holding a contract for the construction of a score of wooden vessels of 3,000 tons register.

The Ottawa, so named in honor of the fair capital of Canada, was sent afloat under the most auspicious circumstances. Probably the most outstanding feature was the remarkable smoothness that marked the carrying out of the launching arrangements. Foundation ships have a consistent habit of getting away from the building slip with precision and the reputation of the company in this respect was fully upheld in the case of the Ottawa.

As usual on these notable occasions, Edward L. Jenkins, assistant Northwest manager of the Foundation Company, and the man at the helm of the Victoria undertaking, was in charge of the launching, and under his supervision everything went off with customary smoothness and promptitude.

Represented France.

A. O. P. Francis, French consul, was an interested witness of the ceremony. Also prominent among the large company of guests on the launching platform was André Millot, of the French High Commission, who has been on the Pacific coast for some weeks inspecting progress on the various shipbuilding contracts that are under way for the French Republic.

Among those on the launching platform were: A. O. P. Francis, French consul; Andre Millot, of the French High Commission; Emile E. Triqueneaux, local representative of the French High Commission; Edward E. Jenkins, assistant Northwest manager of the Foundation Company; Mrs. E. E. Jenkins, J. E. McCormick, assistant secretary-treasurer, Foundation Company; Mrs. J. E. McCormick, George H. Wayland, Mr. and Mrs. W. G. Winterburn and family, Mr. and Mrs. George Mair, Mr. and Mrs. Joshua Kingham and family, Mr. and Mrs. Richard D. Stephens and family, Master R. C. and Miss M. Stephens, Mr. and Mrs. R. F. Stephens, Mr. and Mrs. Goldie Wilson, Mr. and Mrs. E. C. Hayward, Mr. and Mrs. William Turpel and Miss Turpel, Mr. and Mrs. T. W. C. Hawkins, G. A. Kirk, Mr. and Mrs. R. T. Freeman, Capt. and Mrs. W. H. Whiteley, Capt. and Mrs. Charles Harris, Capt. and Mrs. F. C. Stratford, Capt. and Mrs. William Cox, Capt. W. D. Owen, Capt. and Mrs. T. J. Jackman, Capt. and Mrs. Percy Shadforth, Capt. D. Butler, Capt. J. Newby, Capt. and Mrs. H. C. Hansen, Capt. and Mrs. W. Logan, Capt. and Mrs. L. S. Allen, Mr. and Mrs. L. L. Smith, Mr. and Mrs. J. McKay, Mr. and Mrs. G. G. Bushby, Mr. and Mrs. C. Cholberg, Mr. and Mrs. D. L. Mickey, Mrs. Bettram, Mr. and Mrs. R. W. Perry, Mr. and Mrs. S. M. Shaw, Mr. and Mrs. A. Campbell, Seth Ward, Mr. and Mrs. Ward, Mr. and Mrs. A. Beecroft, Fred Knight, Mr. and Mrs. G. H. Hardy, Mr. and Mrs. W. Walker, Mrs. Pendray and Miss Ellery, Mr. and Mrs. L. M. Larson, Mr. and Mrs. J. Robinson, Mr. and Mrs. H. Gibson, Major and Mrs. T. B. Monk, Mr. and Mrs. William Elliott, Mr. and Mrs. R. Jenkinson, Dr. and Mrs. Lewis Hall, Dr. and Mrs. Milne, Mr. and Mrs. Barnett and family, Mr. and Mrs. Hodgson and family, Mr. and Mrs. C. Shivers, Mr. and Mrs. E. Gordon, Mr. Blythe and Capt. and Mrs. Margeson.

Well Christened

The Ottawa was sponsored by Mrs. William J. Stephens, wife of the inspector on this contract for the Bureau Veritas, and one of the pioneers of shipbuilding in British Columbia.

At the appointed hour, 8.30 p. m., Mrs. Stephens, who was attended by Capt. W. J. Stephens, broke the traditional bottle of chamagne across the bows of Hull 218 and simultaneously with this action the newly-christened Ottawa glided away towards her element. The Foundation band, under Bandmaster Lou Turner, which discoursed patriotic and lively airs during the preliminaries, struck up the Marseillaise as the vessel, with gradually increasing momentum, sailed down the greased ways and plunged into the waters of the Upper Harbor. At the same time the air was rent by the screeching of whistles at the Point Ellice plant and the syrenic blasts from vessels in the immediate vicinity. The crowds cheered and hats went alot as the trim hull shot out into the stream. The Ottawa checked nicely and as she drifted with the tide was picked up by the tugs Swell and Sadie and taken in tow for Odgen Point.

In the meantime congratulations were being showered upon the sponsor and Joe McKay, yard superintendent, who personally supervised the release of the ship, was the target of some well deserved compliments.

As the din subsided, Manager Edw. E. Jenkins stepped forward and presented Mrs. Stephens with a gold vanity case carrying the engraved inscription, "From the Ottawa to her sponsor, June 16, 1919."

Praise for Veteran

In making the presentation Mr. Jenkins spoke in complimentary terms of the record of Capt. W. J. Stephens as a shipbuilder, and the pleasure it gave him of the veteran shipper's association with the present contract.

After the launching, Mrs. Stephens told The Times representative that this was the first time that she had officiated as sponsor at a ship launching, despite the fact that her husband had built and launched many vessels during his career.

"I am greatly pleased with the success of the launching," the sponsor added.

Captain Stephens was the centre of a group of friends who took the opportunity to give him a hearty hand shake.

The ways vacated by the Ottawa are to-day being cleared and within the next few hours the keel of the sixteenth hull will be laid down.

When baking potatoes place them in hot water for fifteen minutes before putting them in the oven. They will bake in half the time, and so effect a saving in gas.

HUMAN ENIGMA CROSSING OCEAN

LUCIO AND SIMPLICIO GODINO

"Filipino Twins," eleven years old and joined together for life, who sailed Friday aboard the liner Empress of Russia for Manila.

CAPT. HAILEY TO COMMAND LINER EMPRESS OF ASIA

Master of Monteagle Will Succeed Capt. W. Davison, Who Is Due For a Holiday

CAPT. S. ROBINSON IN LINE FOR NEW LEVIATHAN

When the C.P.O.S. liner Monteagle arrives here from Vladivostok with the last contingent of Canadian troops from Siberia aboard, Capt. A. J. Hailey, R.N.R., will relinquish command of the ship to assume charge of the bridge of the liner Empress of Asia, one of the big three-stackers of the fleet.

The shuffle in commands has been arranged to permit of Capt. Wellesley Davison, R.N.R., commander of the Empress of Asia, to take a long anticipated holiday ashore.

Capt. Davidson has been steadily plying the Pacific ever since he brought out the Empress of Russia on her maiden voyage from Liverpool. He transferred to the Empress of Asia when the two big liners of the C.P.O.S. Pacific fleet were released on the first occasion from Admiralty service, Capt. Robinson, R.N.R., who brought the Empress of Asia out on her maiden trip, then going over to the Empress of Russia.

Capt. Davison remained with the Empress of Asia during the eight months she was used as a transport on the Atlantic, following the commandeering of the Asia and Russia in the early summer of last year.

Now, it is understood, the company has sanctioned a well deserved holiday and Captain Davison will leave his ship at the termination of her next homeward vogage from the Orient.

The Empress of Asia is due here June 30 from Hongkong and Yokohama.

To Stand by Canada

Within a few months it is expected that Capt. Sam. Robinson, commodore of the C. P. O. S. trans-Pacific fleet, will be sent to the United Kingdom to stand by the new liner Empress of Canada, which is being built for the C. P. O. S. at the Clyde yards of the Fairfield Shipbuilding Company.

Prior to that, however, Captain Robinson will be in line for a holiday.

The inference is that Captain Davison will then take over the command of the liner Empress of Russia.

Capt. A. J. Hailey has been long in the trans-Pacific service of the C. P. R., and is one of the popular officers of the fleet.

For a number of years he has been commander of the liner Monteagle, alternating with Capt. F. L. Davison, R.N.R., who is now occupying a shore berth at Vancouver.

Captain Hailey recently recovered from a severe operation, but he is now back in harness and in the best of health, and customary good spirits.

When Captain Hailey packs his grip and transfers to the Empress of Asia, it is expected that Capt. F. L. Davison will again take over the command of the Monteagle. The Monteagle is now nearing the coast on her homeward voyage. She may reach quarantine to-night from Siberia.

CYCLOPS COMPLETES SPEEDY PACIFIC RUN

Blue Funnel Liner Made Port To-day After a Passage of 13 Days From Yokohama

Making the fastest run which has been placed to her credit since she entered the trans-Pacific service the Blue Funnel Line steamship Cyclops, Capt. W. Duncan, reached port this forenoon after a passage of slightly under thirteen days from Yokohama.

Capt. Duncan, who succeeded Capt. W. Cope Lycett last voyage when the latter skipper was relieved to return to England on account of illness in his family, declared on his arrival to-day that the trip was the best that the Cyclops had ever made. Capt. Duncan was formerly commander of the Blue Funnel ship Jason and brought that vessel to this port during the war.

The Cyclops, which is one of the older ships of the fleet, usually takes fourteen days to cross from the Orient. She has lots of reserve speed, however, and with ideal weather conditions prevailing, she was able to make good time.

The C. P. O. S. freighter Methven sailed from Yokohama one day ahead of the Cyclops, and was easily passed by the latter in mid-ocean.

The Methven, according to the officers of the Blue Funneler, is not expected to be off this port until Thursday.

The Cyclops arrived here fully laden with cargo from Oriental ports. Her local shipment amounts to about five hundred tons, but owing to difficult stowage it was impossible to discharge the greater part of this freight.

Longshoremen on Deck.

Longshoremen were on hand at 1 o'clock, and were prepared to unload the Victoria cargo, but declared they would not touch Vancouver freight.

Only fifty tons of Chinese freight was put ashore to-day, it being announced that the Cyclops would return here from Puget Sound to put off the remainder which is stowed in an unsuitable position for immediate handling.

The liner brought in 252 Chinese steerage passengers who disembarked at the Outer Docks. These Orientals will be sent to the Mainland on the G. T. P. steamship Prince Rupert tomorrow morning.

Chinaman Died.

One of the Chinese died during the passage, pleurisy being given as the immediate cause of death. The body has been embalmed and will be returned to China.

Six first-class passengers also arrived on the Cyclops. They were accommodated in cabins used by Canadian officers going to Siberia on the last outward trip. These passengers state that it is impossible to secure bookings by other lines at Hongkong, so heavy is the rush of travel across the Pacific.

After landing passengers, freight and mails here the Cyclops cleared for Seattle via Port Townsend, in charge of Pilot William Ruger. In the event of the strike continuing on the Mainland the vessel may not go to Vancouver before coaling at Union Bay.

MAROONED MEN WATCHED CRAFT BURN FROM ROCK

Vancouver, June 17.—Marooned on a rocky ledge near Siwash Rock shortly before midnight on Monday, the crew of the launch "O. J. T." watched their craft devoured by flames.

Leaving Vancouver at about 10.30 p. m., the tug, in charge of Harry Undine, made her way through the Narrows, but on entering English Bay, an explosion occurred and in a few moments the vessel was enveloped in flames. Undine ran her in towards Siwash Rock, and the crew made their escape. They reached the rocks and were later picked up by Park Superintendent Rawlings and police officers. The tug carried a cargo of provisions and a quantity of gas and lubricating oil. She was valued at $3,000 and was owned by the Eagle Timber Company, Vancouver.

The boat is a total loss.

HENRY CAREY'S LINES.

(From The Montreal Gazette.)

Henry Carey, who wrote poetry and composed comedies in the early part of the 18th century, was the reputed author of "God Save the King." It was written for an earlier George, as the lines indicate:

Thy choicest gifts in store,
On George be pleased to pour,
Long may he reign!
May he defend our laws;
And ever give us cause
With heart and voice to sing,
God Save the King!

A multitude of the subjects of the King George of to-day on the third of June echoed the sentiments expressed in Carey's lines, God Save the King!

VISCOUNT ISHII TO LEAVE ON SUWA

Japanese Ambassador to United States En Route Home

Seattle, June 17.—Viscount Kikujiro Ishii, Ambassador to the United States from Japan, with Mrs. Ishii, arrived in Seattle last night on the Northern Pacific Railway on his way back to Japan, where he is going on official business.

The Viscount and Mrs. Ishii expect to sail on the Suwa Maru on Thursday. An automobile trip over the city has been arranged for this afternoon by Naokichi Matsunaga, Japanese consul at Seattle, and this evening the consul will entertain in their honor at his home. Other automobile trips are being arranged to show the Ambassador and his wife some of the scenic beauties of Western Washington.

The dinner which has been planned in honor of the Ambassador by the Chamber of Commerce has been cancelled out of respect to the memory of the late Governor Lister, but a committee has been appointed, consisting of Reginald H. Parsons, president of the chamber; Judge Thomas Burke and J. D. Lowman, to receive Viscount Ishii on behalf of the chamber and the city.

TOUR BY WILSON FOR WORLD LEAGUE

President Will Speak in Many Cities in States in Its Support

Washington, June 17. — President Wilson, facing a divided Senate, has decided to carry his fight for ratification of the League of Nations covenant directly to the people in a country-wide speaking tour. He hopes to leave Paris for Washington on June 24 or 25 if the Germans sign the peace treaty.

Immediately after his arrival in Washington the President will address Congress. After clearing up pressing official business he will start on his "swing around the circle" early in July.

It was said at the White House to-day that the President expects to spend three weeks on his speaking tour, explaining the peace treaty and the League of Nations covenant. The itinerary has not been announced but he expects to visit the principal cities throughout the country.

Text Not Sent.

The President's decision first became known yesterday coincidentally with receipt of a message in which he declined to give the Senate in advance of the signing, the official text of the peace treaty, requested in a resolution adopted over vigorous opposition of the League supporters.

Neither development caused great surprise here, but each served to emphasize the President's position and to provide further subject matter for the debate on Senator Knox's resolution to put the Senate on record against accepting the League covenant along with the peace treaty.

The President's "swing around the circle" will eclipse in extent and in spirit all his previous direct appeals to the people. It is said he probably will devote most attention to the Western States where League opposition has gained the greatest headway.

Opposition Speakers.

It is regarded as certain that opposition speakers will follow the President's special train through the doubtful states.

The message declining to send the treaty text was received in silence when it was read to the Senate yesterday, but Senator Johnson, of California, a Republican, who introduced the resolution making the request, is expected to make the President's action the subject of a Senate speech within the next few days.

NINE MEN TAKEN INTO CUSTODY EARLY TO-DAY IN CITY OF WINNIPEG

(Continued from page 1.)

Strike Bulletin were issued this morning without any mention of the incident.

The authorities were successful in getting all except three of the men they sought, it was declared, and the missing men, whose identities have not been disclosed, are expected to be rounded up to-day. Whether or not any further arrests will be made in addition to the twelve marked down, or under lock and key, A. J. Andrews says will largely depend upon the incriminating nature of the material seized when the various headquarters were entered.

None in Vancouver.

Vancouver, June 17.—The police department here stated this morning that it had "no knowledge" of any arrests of strike leaders in Vancouver. The same answer was given out at the office of the Mounted Police at 8.45 a.m.

None at Regina.

Regina, June 17.—The mounted Police say there were no arrests of strike leaders here.

None at Saskatoon.

Saskatoon, June 17.—No arrests of agitators or strikers have been made here. The Mounted Police have not been notified to take any action.

It is authoritatively stated that no switchmen or firemen will strike in Saskatoon.

Officials in close touch with the situation between the shopmen and the Railway War Board said they had reason to expect a settlement which would avert the impending strike.

None at Edmonton.

Edmonton, June 17.—There have been no arrests made here in connection with the strike.

None at Moose Jaw.

Moose Jaw, June 17.—No arrests are reported here in connection with recent Federal Government order on strike situation.

Documents Seized.

Toronto, June 17. — Documents which are said to prove conclusively that the I. W. W. and the "One Big Union" which has caused so much of the unrest in Canada and other countries, are the same organization have been seized by the Ontario police.

The document which more than any other is regarded as showing the connection between the two bodies is a large chart on the back of a manifesto sent out over the signature of Wm. D. Hayward, general secretary-treasurer, Chicago, who last summer was sentenced to twenty years' imprisonment. This chart takes the form of a large circle, above which is printed "One Big Union" and "I. W. W." The circle is divided into six sections, and the chart divulges the scheme by which the organizers hope to govern the Dominion and ultimately the whole world, under their proposal.

WE AWAIT REPLY.

VILLAGES TAKEN BY CZECHO-SLOVAKS

Forces Led by Gen. Hennocque Are Attacking Hungarian Bolsheviki

Geneva, June 16.—Czech forces under command of General Hennocque, of the French army, launched a counter-offensive against the Hungarian Soviet troops and have captured several villages after ten hours of fighting, according to a Prague dispatch received here. Two cannon, several Maxim guns and a quantity of ammunition are said to have fallen into the hands of the Czechs.

The War Ministry of Czecho-Slovakia has decided to increase the army to 14,000 officers and 243,000 men.

STRIKE DECISION PROMISED TO-NIGHT

(Continued from page 1.)

part to walk out would prevent a tie-up. "There is no saying what thirty-odd men composing the Strike Committee will do," he remarked. "But it looks like action to-night."

The present labor line up shows that of the larger unions, the carpenters and the majority of the unions engaged in shipyard work favor a strike, while the civic-employees, the street car workers, and the postal workers oppose a walk out. The street railway men will meet to-night for final consideration of the issue, it is quite probable that they will take a vote. It is also thought improbable that the retail clerks who will meet to-night will take a strike ballot.

The Electrical Workers.

At their first meeting the electrical workers refused to consider the strike, but passed a resolution expressing sympathy with the Winnipeg strikers. When it met last night the union, which is composed of 175 men, decided to make no change in its stand. It contends that its agreements with companies must not be violated and that its international must be consulted before it can walk out. In view of the attitude adopted by the internationals toward the Winnipeg strike, it was considered impossible that they should countenance a walk out here unless the local union was directly affected.

Not only do the electrical workers reject the strike proposal, but they do not entertain the idea of delegating their authority to the Strike Committee. It is stated, however, that should a strike be called the situation might reach such a stage that they would deem it advisable to stop work. But the Strike Committee, it is understood, will be informed that under no circumstances would the power be "pulled."

Labor leaders maintain that the plan for collective bargaining, as submitted by the Winnipeg employers and endorsed by the brotherhood, might have proved the basis for a satisfactory settlement of the present trouble if the Minister of Labor had not previously refused to reinstate the striking postal employees.

C. P. R. GIVES EMPLOYEES IDLE AT VANCOUVER TILL NOON TO-MORROW TO RETURN

(Continued from page 1.)

New Westminster.

At New Westminster the strike situation does not appear to have solidified general and it was stated to-day that there were but three unions solidly in favor of a strike. Telephone girls went out at the first call. A delegation of operators called upon the Strike Committee last night and requested that they be permitted to return to work in a body. The Strike Committee refused.

A storm of protest has been started by the returned soldiers against the acceptance by their president, T. A. Barnard, of a place on the Strike Committee in New Westminster and petitions are now in circulation asking for his removal from office. The G. W. V. A. of New Westminster is observing an attitude of neutrality in that city, although the returned soldier organization in Vancouver came out flat against the strike and scored the strike leaders as men inimical to good society.

No Statement.

The Vancouver Strike Committee made no statement up to an early hour this morning. J. Kavanaugh, leader, declared that none would be made hereafter, excepting over his signature.

Trouble with the inside staff of the City Hall is not expected to develop. The Citc Council has accepted the report of the conciliation committee recommending increases of salaries.

Mayor Gale expressed himself as pleased with the local situation. Conditions, he said, were nearly normal. "This is supposed to be a general strike," he said, "but as far as inconvenience is concerned, the average citizen would hardly know that a strike was on," he concluded.

COUNTESS MARKIEVICZ JAILED IN IRELAND

Mallow, Ireland, June 17.—Countess Georgiana Markievicz, Sinn Fein leader and the only woman member of the British Parliament, was sentenced to four months' imprisonment to-day on charges growing out of disorders in Cork on May 17. The Countess was alleged to have incited tradesmen to boycott the police and to have participated in an unlawful assembly at Cork.

GREEN VEGETABLES IN LARGE NUMBERS

Local Produce Now Feature of Retail Market; Prices Drop

Last week on the local retail market was marked by a notable decrease in the price of green vegetables, and the appearance of a number of local varieties. New potatoes grown in the country surrounding the city are now on sale in considerable quantities, and have dropped in price, while new carrots and turnips are in evidence for the first time. Strawberries are coming in new and are lower in price. New lettuce, too, shows a decrease in price. While larger quantities of new vegetables are apparent there is a proportionate decrease in the fruits of last fall, apples showing a noticeable increase in price.

The following is the full list of prices:

Vegetables.

New Carrots, 3 bunches		.10

SOLDIER OF STATES WAS ACCIDENTALLY KILLED IN FRANCE

Brest, June 17.—One American soldier was killed, two are dying and more than one hundred others were injured as the result of the collapse of a Knights of Columbus hut at Pontanesen last night while a boxing match was in progress.

72ND BATTALION.

Winnipeg, June 17.—The 72nd Battalion, bound for Vancouver, passed through Winnipeg at an early hour this morning. Troops off the Olympic arrived at 6.30 this morning. There are 200 for Winnipeg and 100 for Regina.

NEW YORK STOCKS CAME BACK STRONG

Easing of the Money Rate Drove Shorts to Cover

(By Burdick Bros. & Brett, Ltd.)

New York, June 17.—With the tax payment out of the way money rates came down this morning, first to ten per cent, and then to six. The short interest was considerably increased yesterday and long lines reduced. U. S. Rubber, after standing the reaction in an impressive manner, led the market to higher levels when the shorts started to cover. Rubber made a net gain of ten points. Oil stocks were helped by the announcement of a 25 per cent. dividend by Royal Dutch, the better class of oil stocks made substantial advances. It was reported that the British deal for the International Mercantile Marine had been rejected by the shareholders, the news was taken as favorable by the holders and both issues sustained their rise. The upward movement spread through the entire list.

Waterfront Fire in Liverpool Causes Loss of $5,000,000

London, June 17.—A big fire broke out on the Alexandria Docks in Liverpool last night. Warehouses stored with timber, cotton, oil, four hundred barrels of turpentine and other inflammables blazed fiercely for hours and are still burning. Several vessels were safely removed from the danger zone, but a blazing roof from one warehouse fell on the American steamship Norlinda, which was badly damaged. The crew of the ship escaped.

Newspaper dispatches estimate the damage at £1,000,000.

If a fruit or meat pie is placed in a tin of boiling water when put in the oven to cook, the fruit juice or gravy will neither boil over nor soak into the crust.

GRAIN PRICES AT CHICAGO CLOSE LOWER

(By Burdick Bros. & Brett, Ltd.)

Chicago, June 17.—The grain market was a nervous affair to-day and many long lines were replaced on the strength shown in the early markets. The options were stronger than the cash article and the market became overbought. The last half hour saw the early buyers getting out at lower prices. Damage reports while true to a certain extent have been very much enlarged.

FOUR LITTLE ONES PERISHED IN FIRE IN QUEBEC PROVINCE

Quebec, June 17.—Four children perished in a fire at St. Francois, Beauce County, last Saturday night, when the home of their parents, Mr. and Mrs. P. Plante, was destroyed by fire. The parents were out working in a field and the house was in charge of a sick relative, who managed to escape. The fire was caused by a boy sprinkling petrol over a red hot stove.

JOB LOT.

Seeing the newly arrived twins, little Bess exclaimed, "Oh, mamma, was there a sale on 'em?"

Teach the Children to Save

Habits are acquired early in life. Children, who are taught the value of money and the habit of saving, grow up into good business men and capable women.

The easiest way to teach children to save, is to start a Savings Account for each child ($1.00 each is sufficient). After a child has saved another dollar to make an additional deposit, he or she will have a better appreciation of just what a dollar stands for, and how much work and self-denial it represents.

Where does your salary go?

THE months go by with dizzy rapidity and you find at the end of a hard working year, that you are no better off than you were at the beginning.

Year after year it will be the same if you don't take immediate steps to stop the outward flow of your earnings.

Cultivate the saving plan. Try opening a savings account in The Bank of Toronto. It will be surprising how little you will miss what you lay aside, and how quickly your savings, together with the interest they will earn, will accumulate to a substantial sum.

A. P. Boultbee
Manager

SALVATION ARMY HAS BEEN MOTHER OF MEN

What Red Jersey Has Done in Peace and War Time

Simple, unostentatious service, that is the keynote of the Salvation Army work everywhere. With no thought of reward, other than the knowledge of faithful work performed, this noble band of devoted men and women have for many years unswervingly dedicated their lives to the service of poor suffering and erring humanity.

In peace times they constituted a militant army of peace, rescuing hundreds of thousands of those who were considered as hopeless and useless derlicts, making of those same derlicts useful and respectable members of the community. The Salvation Army has proved itself, in this chosen work, a blessing to the world at large.

In war times the Salvation Army became a militant army of mercy and comfort to the soldiers, a veritable Mother of Men.

The Salvation Army dispenses no charity, for charity, at best, is merely a perfunctory service, mostly given in a grudging way. The recipient of charity is usually well on the road to loss of self respect.

The Salvation Army radiates helpfulness and good cheer, and invariably elevates the individual. The Red Shield drive is now in progress in this city for $20,000.

SICK.

"Were you very sick with the flu, Rastus?"

"Sick, sick! Man, Ah was so sick mos' ebery night Ah look in dat er casualty list for mah name."

Every Step is Cushioned

The constant hammering of hard heels and stiff leather soles on harder pavements, jars the whole system and tires you quickly.

Cat's Paw Rubber Heels and Rinex Soles

cushion the heel against sidewalk impact and give a lightness and spring to each step that enables you to walk long distances without apparent effort.

Besides being waterproof—they cut shoe bills in half.

On all shoes, demand Cat's Paw and Rinex, the "heels and soles of health."

DOMINION RUBBER

MANUAL TRAINING IS POPULAR COURSE

Boys Make Baseball Bats, Wedding Presents, and Are Anxious For Work

EXHIBITION OF WORK AT ESQUIMALT SCHOOL

To give parents and those who may be interested an opportunity of viewing the work done by students attending the manual training classes, an exhibition of work opened yesterday at the Esquimalt Public School, Lampson Street. The first day of the exhibition drew a large number of visitors, most of whom were greatly impressed and surprised at some of the skilful work the students had been able to produce. The drawing, relief maps, and tile patterns aroused great admiration among the visitors, but the interest of all mainly centred in the great variety of woodwork done at the benches in the spacious workshop.

The articles on exhibition when a Times representative visited were plainly the products of pupils interested in their tasks and fully corroborated the statement of the manual training and drawing master at the school, F. Waddington, that manual training is a pleasure to both the boys and girls who take the course. Speaking on the objects of an exhibition he declared "the exhibition tends to emulate competition, for if it were not for the exhibitions the children would never see one another's work. The invitation, extended to the parents, also gives those who take advantage of it an opportunity to judge the work done by their own children by that of other children, and eliminates any false impression they may have of their own children's work.

Selecting a Career.

"It also helps them, if the student has shown any particular talent, to select a career for the boy or girl. It also gives any who care to make the comparison an opportunity of judging the working of the Esquimalt School in comparison with the work of other schools in the district.

Regarding the aesthetic taste, manual training teaches them an appreciation of the beautiful in form and color, and develops their inventive faculty, he pointed out.

Girls' China Designs.

An instance of this fact was shown in the tile patterns drawn and colored by some of the pupils. The color schemes in most cases were strikingly harmonious and the designs both tasteful and original. Designs for chinaware were also a feature of the exhibition, and in this regard the master pointed out many of the most artistic designs were the creation of girl students.

The girls, Mr. Waddington said, only take the manual training course as far as drawing, and do no bench work. "I think it advisable the girls should be allowed to do bench work," he said, "and know they would appreciate the opportunity."

Formal lettering is included in the course. Some scholars, the instructor stated, found they had a gift for this kind of work which they would never otherwise have discovered. One student, he mentioned, who had first found his ability for this work during the manual training course, was now a successful show card writer in Seattle earning $400 per month.

Inlaid Work.

Students from ten years of age to fourteen years of age take the course, commencing with simple pieces of work made from one piece of wood until they were able to do inlaid work. The exhibition includes specimens of every grade. Some of the work in the higher classes would stand the most careful scrutiny. Dovetailing was done with extreme neatness and exacting inlaid work in a manner that showed the painstaking effort of a scholar interested in his task. A particularly neat box with well fitting drawers was much admired, lamp stands of several varieties, bread boards and many articles for household use were included.

A Wedding Present.

Pointing to a well made and polished pedestal, the instructor mentioned that it was made by one of the boys for a wedding present for his sister. "It took more wood than we are allowed," he said. "We are allowed the material for smaller articles, but not for a big one of this nature. Some days after I had told the boy that he would have to bring his own lumber for an article as large as he wished to make, he attended class with an old six-inch by six-foot fence pole, and he is immensely proud of the result of his work."

Wood Turning.

A wood turning lathe has been necessary to make many of the samples of work on view, and Mr. Waddington, himself has supplied the foot power lathe on which the work has been done, one enterprising student having made himself a serviceable baseball bat. The lathe is in great demand and taking advantage of the students eagerness, the master uses it as an incentive to neat work. A boy has to make ninety-five per cent. marks before he is allowed to use the lathe, and everyone in the class strives to reach the percentage so that they can make some of the attractive pieces of work that a lathe makes possible. "It is no trouble getting the students interested in manual training. They come to me howling for work and asking for something to do at home," Mr. Waddington remarked.

Tools as Presents.

Some of the parents give their children tools for presents, and most of them prefer them to toys. One of the boys to-day brought a mitre cutter to class which his parents had bought him to be shown how to use it.

The bench work is done in a well-lighted workshop removed from the school a sufficient distance for the noise not to reach the other class rooms. There are twenty-four solid benches, each with two vises, and equipped with a brass rule, square, marking guage, chisel, tennon saw, and Jack plane. Other tools not so generally used are provided for general use, but not provided to each bench. A grindstone is also included in the equipment of the workshop, and the boys are taught how to sharpen tools and set and file a saw.

Use it instead of linen; 38 inches wide. Special value at, yard **59c**

FRENCH SOLDIER HERE

Capt. Balband, a Prominent Educationalist, Brings Thanks of France Canada.

With a distinguished war record, Capt. Balband, a French officer who served from the early days of the war until after armistice, has arrived in this city and arrangements are now being made to have him address a public meeting within a few days.

Capt. Balband is a prominent educationalist. Prior to the outbreak of war he was connected with the University of Toronto for nine years. When his country was in danger he immediately left Canada and enlisted in the French army as a private, going into the line on September 6, 1914, in time to assist in forcing the Boche back from the Marne.

The soldier brings the thanks of France to Canada for the many sacrifices and invaluable assistance lent the Republic during its crisis. He is also trying to secure the interchange of scholarship between the universities of this country and France.
